Parent Account: Parents emails listed as first custodial parent in Powerschool are entered in SchoolsPLP and will receive updates on student progress via a Student Pulse Report weekly. To check progress directly you may log in as a student and click the Parent/Guardian log in box. This allows you to see dashboards but not interfere with work.

A Student Pulse Report is sent out every **MONDAY** morning with details on progress to specified parent emails. If NOT receiving this report and would like to please reach out to your students' homeroom teacher. **Keep in mind minutes worked may be shorter than log in hours. Virtual students are tracked by log in sessions which are accessible on the students main screen or email virtual mentors directly for those hours.*
