3 **PARENT CONFERENCES**
4

5 Code **IKACA** Issued **9/05**
6
7

8 Purpose: To establish the board's vision of the importance of conferences.
9

10 The superintendent may not permit schools to operate without communication between home
11 and school, including early notice of academic problems with students or changed behavior of
12 students, and planned conferences between parents/legal guardians and teachers.
13

14 To ensure meaningful participation, schools must provide appropriate language support services
15 for conferences, including interpretation and translation as needed, so that families who speak
16 languages other than English can carefully engage in discussions about their child's education.
