

Mountain Education

"The first choice for a second chance to build a better future through education."

Child Find at Mountain Education

In accordance with federal regulations and State Board Rule 160-4-7.03, Mountain Education assumes the responsibility for the location, identification, and evaluation of all children of high school age that require special education and related services. All children who are suspected of having a disability and who are in need of special education are part of the child find process, regardless of age.

- Mountain Education is a State Completion High School located within other Public School Districts obligatory attendance zones. Mountain Education is obligated to follow Child Find obligation to those students that are enrolled in Mountain Education.
- For high school aged students enrolled in Mountain Education who are suspected of having a disability, please contact the Campus Principal or the SST/MTSS Coordinator at your student's campus about the referral process.
