

Typical School Day

Sayville Middle School operations a 9-period school day with 10th period extra-help Monday through Thursday. Our schedule is designed to provide students with a well-rounded educational experience, balancing essential core academics with enriching exploratory courses.

Advisory

The day starts with Advisory, a short session for attendance, announcements, and building community within a smaller group.

Block Schedule

6th and 7th grade schedules operate on a block schedule format (Bell Schedules on next page). Students will receive an Hour of instruction in all 4 core academic areas on an alternating day basis.

8th Grade students schedules operate similarly to how the high school functions, however all students are still assigned to an academic team.

10th Period

Monday- Thursday (or the last day of the week) all students should attend 10th period from 2:30-2:55. This valuable and unique set-up is to the benefit of all students. Students can receive extra-help if they are having difficulty with a topic, make-up tests and work with their teachers, etc... We encourage ALL students to stay for 10th period each day.
