## ABOUT PALS

Our model is based on one-to-one pairings between similarly-aged individuals with and without Down syndrome. Teams spend a full week together (7 days, 6 nights) living together in dorms, participating in on-campus activities, taking on new adventures with our off-campus trips, while learning more about themselves and others as they build transformative friendships

Email [support@palsprograms.org](mailto:support@palsprograms.org) for more information.
