Tim Streeter - Treasurer
Maggie Donovan - Historian
Tara O'Brien - Public Relations

Current Business

New Hampshire Retirement System

The board welcomed State Representatives George Winchell and Kenneth Weyler who reported on the New Hampshire Retirement proposed bills that are currently in committee. The proposed bills are presented as a solution for the currently reported deficit by the NHRS. They reviewed the past history of NHRS and the management of the funds. Some of the concerns of the NHRS participants are the medical insurance subsidy, cost of living increases, and years of service. They clarified that the medical subsidy is funded by a separate fund from the pensions and continued that a long term solution needs to be provided for all groups concerned.

They went on to report on the adequate funding of education noting some of the student categories that affect the adequate funding, including but not limited to, free and reduced lunches, English as a second language and special education needs. They will continue to work towards a solution to this problem as well.

School Board Goals

The board reviewed the 2008-2009 proposed goals of the school board.

- **Motion:** Mr. Brown made a motion, seconded by Mrs. Aubrey to
- **Voted:** Accept the goals as presented
- **Passed:** Unanimous

Mrs. Champey asked that the goals be reviewed by the board more frequently.

Policies

Mr. Coker reported the following policies are presented for a first reading;

ACE which has been modified
BHE which is being re-affirmed
DJB which is also being re-affirmed
DJE which has been modified and also needs to be re-affirmed
EBCB which has also been modified and is now a shorter vision

These policies and all the policies are available for the public to view on the Timberlane website. Mr. La Salle clarified that the policies guide the district in their day to day operations.

GED Option Program

Mr. Coker reported the interest in a new program that will support students who cannot graduate with their class due to a lack of credits. Currently, these students would have to drop out of school and take the GED test. If they passed they would be classified as a drop out with a General

Education Diploma. The proposed program would allow the student to remain in school and take the GED test and if they pass, they can still graduate with their class. Students who express compensatory knowledge should be awarded a diploma. This program could start in the fall of 2009. Mr. Coker believes that this program is beneficial to both students and district as it reduces the drop out rate and could effect approximately 30 students per year. Mr. La Salle expressed his approval of the program and noted that the night division is a positive model that is used throughout the state for alternative paths for graduation.

Truant Officer

Mr. Coker presented a truancy report as requested at the previous meeting. The report outlined student absenteeism for the middle and high school over the past few years. The board discussed whether or not a full time or part time truancy officer was needed to address the problems at the high school. Mr. La Salle clarified that a truancy officer's fundamental role is to

- a) Pick and up and deliver the student to school
- b) Work with the parents to help the situation
- c) Initiate "CHINS" (child in need of services) if warranted. CHINS would be initiated if:
 - 1) Child is out of control of the parents
 - 2) Parents are not exercising their responsibilities

Mr. La Salle went on to say that the profile of a high school drop out is an above average student with a past history of poor attendance.

Mr. Coker suggested a contracted service as needed for the truancy officer.

- **Motion:** Mrs. Champey made a motion, seconded by Mrs. Aubrey
- **Voted:** To research the cost of contracted services for a truancy officer.
- **Passed:** Unanimous

Mr. Stokinger noted a budgeted line item of \$1,100 for a truant officer which had not filled in recent years. He further stated a contracted service must have the ability to initiate a CHINS order. Currently each student that is truant is costing the district.

SRO Evaluation Committee

Mr. La Salle reported Chief Savage has agreed to be part of the committee that will evaluate the Safety Resource Officer; other committee members will be Lisa Withee and Elizabeth Kosta,

Construction Update

Mr. Stokinger reported the last meeting of the high school construction committee was on April 24th and the next meeting is scheduled for May 12th, 2008. The bidding process for the high school construction began on April 23rd and is scheduled to close May 8th, 2008.

The committee is pleased with the architect for the middle school. He (the architect) has done a lot of research for the space and has taken into consideration the ASD population. He took the time to understand the need for certain color schemes in the walls, rugs and ceiling as well as the lighting.

He went on to report that the middle school project cost began at \$191,000 and with the committee's input it is now down to \$170,000. Currently there is funding for \$167,850 of this

project leaving a deficit of \$2,810. The committee is waiting for the bids to reduce the project to the funded amount of \$167,850.

He continued to say that the middle school project began with an estimated cost of \$144,000 per the warrant. Once the committee and architect reviewed the entire project the cost increased to \$191,000. The committee and architect worked on reducing costs which brought the cost of the project to \$167,850. Mr. Coker agreed to move \$20,000 from the curriculum budget and Mrs. Lovett provided \$2,000 from the special education budget to support the project. He was able to find the remaining \$1,850 in other areas to bring the total funded amount to \$167,850.

Mr. Stokinger then reported on the Atkinson Academy kindergarten project. He reviewed the cost of the retaining wall and eight foot fence. He then reviewed the costs of site supervision, the fire protection engineer and other unexpected costs of the project.

Administrator

Mr. La Salle reported a waiver has been approved for the Pollard School for the day that they could not attend due to a heating system problem. The Pollard teachers will be required to make up the day but the students will not. He continued by reporting on the district's Annual Yearly Progress results; he explained that the district showed twice as much increase as decline which is positive and he believes it is due to the new math curriculum. A discussion ensued.

Committee and Reports of the School Board

Mr. Brown reported the Community Relations Committee will spread the news of upcoming school events so parents can arrange to attend them. Mrs. Champey attended the policy committee meeting. Mr. Paone noted that Mrs. Withee thought that the committee reports were not being reported and he would like to have them in the minutes. He continued to poll the board to see if their understanding of the block scheduling motion that was passed during the April 17th meeting was to move forward to further investigate block scheduling for the high school. He reported that Mr. Woodworth understood the motion to move forward and implement block scheduling. The board clarified that they need additional information before block scheduling would be considered for approval. Mr. Collins reported that Danville was well represented at the Invention Convention on Saturday, April 5th. The following students Austin Hall, Grade 4, Rory Ceplo, Grade 2, Lindsay Cooper, Grade 3, Matthew Steele, Grade 4, Owen Sweet, Grade 5 and Austin Venegas, Grade 5 all won awards. Congratulations to all the students who enjoyed that convention. Mr. Stokinger reported for Mrs. Withee that the next Facilities Meeting is scheduled for Tuesday, May 13th at 8:30 AM. Mr. Baldwin reminded the board members that the school board will be attending a workshop on Thursday, May 15th.

Other

Mr. Stokinger recommended the board pay the \$15,000 architect fee for Leveillee- Brensinger out of this year's budget. The architect fees are for the middle school ASD renovations. Mr. Stokinger noted that the architect fees were not included in the warrant article presented to the voters in March of this year.

Motion: Mrs. Aubrey made a motion, seconded by Mrs. Kosta

- To approve the payment of architect fees for the middle school ASD room renovations to Leveillee-Brensinger up to \$15,000.

Passed: Unanimous

Mr. Stokinger also reported on the Annual Financial Audit by Plodzick and Sanderson. He directed the board to review the summary of the surplus (page 27) from the 2006-2007 school year. He

then directed them to review the auditors summary of results and financial statement findings (page42) noting that all items have been addressed. He also noted that the audit fees will increase next year by 20-40%.
