Executive Summary

Sports / Facilities Update

Middle School Softball Field: A plan has been developed to improve field drainage by running French style drains through infield and along the perimeter to a catch basin in proximate to the fields. The Middle School Field is currently being used by fall sports teams and the work is expected to commence at the conclusion of the fall sports season. Cost is expected to be \$6,500.

High Jump Area: The Facilities Department is working on obtaining quotes.

Sandown Central Roof Clean Up: A claim has been filed with Primex relating to the costs associated with ServPro building cleaning and the air quality study. Costs to date are \$14,200.

Exterior pressure washing was originally part of this project once roofing was complete.
