## **PUBLIC GIFTS AND DONATIONS**

Gifts from organizations, community groups and/or individuals, which will benefit the District, shall be encouraged. A gift shall be defined as money, real or personal property and personal services provided without consideration.

Individuals or groups contemplating presenting a gift to a school or the district shall be encouraged to discuss in advance with the Building Principal or the Superintendent what gifts are appropriate and needed.

The Board reserves the right to refuse any gift that does not contribute to the achievement of the district's goals, or in which the ownership of the gift would tend to deplete the resources of the district. In determining whether a gift will be accepted, consideration shall be given to district policies, school district goals and objectives (with particular emphasis on the goal of providing equal educational opportunities to all students) and adherence to basic principles outlined in the regulation that accompanies this policy.

The Superintendent may accept gifts in the amount of \$500 or less. Gifts in excess of \$500 may only be accepted by the Board. Additionally, pursuant to RSA 198:20-b, gifts in the amount of \$5000 or more shall require the Board to hold a public hearing regarding any action to be taken with the gift. For gifts of less than \$5000, the Board will post notice of the gift in the agenda of the next regularly scheduled Board meeting and will include notice in the minutes of the meeting in which the gift is discussed. The acceptance of all gifts will be made in public session.

Any gift accepted shall become the property of the district, may not be returned without the approval of the Board, and is subject to the same controls and regulations as are other properties of the district. The Board shall be responsible for the maintenance of any gift it accepts.

At the time of acceptance of the gift, there will be a definite understanding with regard to the use of the gift, including whether it is intended for the use of one particular school or all schools in the district. The Board will make every effort to honor the intent of the donor in its use of the gift, but reserves the right to utilize any gift it accepts in the best interest of the educational program of the district. In no case shall acceptance of a gift be considered to be an endorsement by the Board of a commercial product or business enterprise or institution of learning.

It is the responsibility of the Superintendent or designee to process the appropriate forms to update inventory and to notify the donor of acceptance or rejection of a gift.

## **SCHOOL YEAR / SCHOOL CALENDAR**

The school calendar will be developed by the Superintendent and approved by the Board. Any exceptions or revisions to the calendar must be approved in advance by the Board. The Superintendent shall ensure that the calendar conforms to the number of actual days of instruction and employment as required by law, board policy, and staff contracts.

To the extent possible, the calendar will be coordinated with the school calendars of the area vocational schools, regional special education programs, and other districts in the SAU.

The school year shall be a minimum of 190 days, including a minimum of 180 instructional days for students and additional days for the teaching staff, emergency days, etc.

Any days that the schools are closed for emergency reasons will be made up at the end of the school year, during recess periods or as otherwise approved by the Board upon the Superintendent’s recommendation. Under special circumstances the Board may request an exception to this requirement from the State Board of Education.

Alternatively, the school year may consist of the number of hours as required by New Hampshire Department of Education Rules. In the event schools are closed for excessive days for emergency reasons, the Superintendent may recommend to the School Board a revised schedule that satisfies all Department of Education requirements, but which may amend the number of days in the school year.

Hi Cathy-

Our consultant for the impact fees had another thought on how we could get usable data from the school while still keeping in mind the confidentiality concerns the school board had. See his email below and document attached. Is this feasible? If so, do you think you might be able to give me an estimated timeline on when you think it could be completed?

Thanks,  
Andrea

Hi Andrea -

I had another thought on your data request for enrollment by address to TRSD. I am guessing that they will still have confidentiality concerns with the initial format of the request.

I've done more work with the assessment file and created a new version for entering enrollment counts by address into the attached spreadsheet.

Upon completion of data entry in this file, the TRSD could delete Columns A and B before returning the results to you. This would strip out all

parcel ID and address information but would leave the essential data intact for our crosstabs.

Assuming they are willing to enter the data, this should alleviate any confidentiality concerns as we would have only enrollment data by type of unit and related housing characteristics.

Either format works for me, but TRSD might feel more comfortable with this approach.
