[Dr. Webb] The Primary Care Sports Medicine Fellowship here at LSU Health Shreveport. It is a one year program that we take to train primary care physicians that have already completed their residency in either emergency medicine, internal medicine, pediatrics or family medicine.	Older Man with fair complexion and graying hair, wearing glasses and a black pullover with a gold L S U Health Shreveport Sports Medicine logo on the left chest. Text: Charles Webb, D O Director, Primary Care Sports Medicine Fellowship
It is a 12 month program where they're exposed to athletes from all ages, from ages six through master's level athletes. We cover a multitude of sporting events and colleges from the Division three level and all the way up to Division one. We also are active in our community with boxing, MMA. [Dr. Lal] One of the sideline coverage events that we do are our local NAHL, Mudbugs hockey team. We work closely with all of those athletes sideline and in the training room, as well as their athletic trainer	Woman with medium complexion and long dark hair wearing a black pullover with a gold L S U Health Shreveport Sports Medicine logo on the left chest. Text: Naina Bouchereau-Lal, M D Sports Medicine Fellow
who teaches us a lot about the experience of working with athletes, taping, management, etc. as well as the coaches.	Still shots of Mudbugs hockey

We also work with the Shreveport Metropolitan Ballet dancers, ages 8 to 18 years old, so really goes for the pediatric population. So we get good exposure with that.	Dr. Lal on camera
[Dr. Webb] We also have one of the few curriculums that is based on Canvas that we utilize. We have a question bank of over 5000 questions, and every one of our fellows is given a handheld ultrasound to start using to reinforce the ultrasound curriculum that is mandated by the AMSSM.	Dr. Webb on camera
[Dr. Aguirre] To help them get comfortable using the V-scan - using ultrasound. We use ultrasound and every Friday morning on the cadaver, which we look for anatomy and pathology. And then while we're there, we we do ultrasound guided procedures. So we practice our skills before we actually perform them on a patient.	Man with medium complexion, with glasses and short dark hair and close cropped balbo beard and mustache wearing a black pullover with a gold L S U Health Shreveport Sports Medicine logo on the left chest. Text: Kenneth Aguirre, MD Assoc. Program Director, Primary Care Sports Medicine Fellowship
[Dr. Webb] So with this program, you're going to come out well-trained, ready to handle anything that can come your way in the world of primary care or sports medicine.	Dr. Webb on camera
