

**FREE**

# Student Athlete Cardiac Screening

**Catholic  
Health**

St. Francis Hospital  
& Heart Center®

As part of our mission in the community, St. Francis Hospital conducts free cardiac screenings for student athletes. Students must be in grades 9 through 12.

All students are required to have a consent form and medical history form completed by their parent prior to the evaluation.

These forms can be found at [www.stfrancisheartcenter.com](http://www.stfrancisheartcenter.com) (type "cardiac screening" in the search text box on the home page). Proper picture ID is required and the student must also be accompanied by a parent.

During the assessment, an EKG and echocardiogram will be performed. Results from the tests will be available immediately following the screening from the pediatric cardiologist.

Please call to schedule an appointment.

Screenings are offered once a month during the school year.

**Time:** 6:00pm - 8:30pm

**Location:**

St. Francis Hospital  
Cardiac Imaging Department  
100 Port Washington Boulevard  
Roslyn, NY 11576
