

NYPA Relicensing Agreement

Renewal of June, 2005 Agreement

Host Communities: Lewiston Porter Schools, NF City Schools,
Niagara Wheatfield Schools, Niagara Falls, Lewiston, Niagara
County, Town of Niagara

Rates

- Host Communities receive a preference rate at the lowest possible rate charged by NYPA.
- Rates to be based on cost of production and State regulated methodologies for any increases.
- Host Communities can be involved in the rate setting process and raise objections to the methodologies employed in the event of future rate increases.
- NYPA plan to increase rates incrementally over six years.

Power reductions and curtailments

- If occurring due to an event of an Adverse Water Condition, language added to require continued low cost power if curtailment is due to NYPA negligence in causing the reason for curtailment.
- If an unplanned power curtailment occurs, Host Communities continue to receive preferential rate and NYPA is restricted in amounts they can charge for substitute power and expenses incurred in obtaining substitute power.

Clean Energy Certification

Green Attributes (Renewable Energy Certificates) provided the the Host Communities.

Not able to sell or monetize

Able to confirm and certify that District is environmentally conscious and using renewable energy. Promote a cleaner environment and energy consumption.

Misc provisions

- Agreement language maintains priority over conflicts with other Rules and Tariff language.
- Host Communities can pause electrical service at times, which can add flexibility in the event of price fluctuations and market trends.
- Election of the purchase of substitute energy from NYPA or outside sources remains in effect until notice of change. No yearly obligation of Host Communities to provide updated notice.
- New Term extends to September 1, 2041.
