About Your Professional Development

Professional development is required for all educators and administrators. To be of high quality, professional development is guided by the learning needs of all students, includes accepted theory on the learning needs of educators and incorporates a planned progression for improvement on a continuing basis. A professional development plan that fulfills the licensure renewal requirements is based on the needs of the educator, the students, the school, and the school district in which the educator is currently employed.

An educator/staff member wishing to renew a professional license must receive the approval of his or her Local Professional Development Committee for an Individual Professional Development Plan and complete the required amount of professional development during their renewal cycle:

- Six semester hours of coursework related to classroom teaching and/or the area of licensure; or
- 18 CEUs (or 180 contact hours) in workshops or equivalent activities related to their IPDP goals as approved by their LPDC Committee.
- Coursework, workshops, or other equivalent activities may be combined.
