CVUSD Information Letter Regarding Math 6CP to 7H Boost Exam & Camp

Dear Parent/Guardian,

All current, 6th grade CVUSD students, who are taking Math 6CP, and interested in taking the Math 7 Honors (7H) class, are eligible to take the **Boost Exam**, and all 6th grade CVUSD students, who are taking Math 6CP and qualify (see qualifications below,) are eligible to participate in the **Math 6CP to Math 7H Boost Camp**.

The [CVUSD Math Flow Chart \(Grades 5-9\)](#), located on our [District website](#) delineates the CVUSD Math Pathway for the 2026-2027 school year. These state standard pathways do not allow students to go from Math 6CP to Math 7 Honors (Math 7H) directly. **In order to advance from Math 6CP to Math 7H, students must complete the Math 6CP to 7H Boost Exam with a score of 70% or higher.** If eligible, students taking the Boost Camp must pass the administered Boost Exam at the end of Boost Camp with a **70% or higher**, or receive an **overall Boost Camp grade of 80% (including Boost exam)**.

Boost Exam:

- **Eligibility:** All students taking Math 6CP can take the **Math 6CP to 7H Boost Exam**.
- **Description:** For students seeking to boost from **Math 6CP to Math 7H**. The District's boost exam will test those concepts and standards from the Math 7CP course. Study guides covering this material are available for students to study prior to the exam dates. Students who wish to take the Boost Exam must register at the link below.
- **Registration:** Any student can register at this link (<http://bit.ly/CVMathPlacement>) for the **Math 6CP to Math 7H Boost Exam**. The Boost Exams will take place on Monday, June 15th or Friday, July 31st at Colina Middle School (1500 E. Hillcrest Drive, Thousand Oaks). **Each student can only take 1 exam per year.** Both exams have limited space, so please register early to secure your spot. **Registration must be completed by May 15, 2026.**
- **Required Score:** The prerequisite for students to move from **Math 6CP to Math 7H** is passing the Boost Exam with a **70% score or higher**.

Boost Camp:

- **Eligibility:** Students currently taking Math 6CP who earned A's or B's in Semester 1 marking period can participate in the district's Boost Camp. A student who takes Boost Camp still must pass the **Math 6CP to Math 7H Boost Exam** with a **70% or higher** to be placed into Math 7H, or receive an **overall Boost Camp grade of 80% (including Boost exam)**. Space is limited. However, families of students who do not qualify based on the above criteria can request to participate in Boost Camp by completing this [request form](#) if your child is not eligible.
- **Description:** Boost Camp is a cost-free in-person summer school opportunity from July 6 to July 31, 2026 from 8:30 a.m. to 11:00 a.m. to gain the additional skills necessary for Math 7H. Students must take the Boost Exam on Friday, July 31st at Colina Middle School (1500 E. Hillcrest Drive, Thousand Oaks).
- **Registration:** Eligible students must register at this link (<http://bit.ly/CVMathPlacement>) for the **Math 6CP to 7H Boost Camp**. These students will take the Boost Exam on **Friday, July 31st at Colina Middle School (1500 E. Hillcrest Drive, Thousand Oaks)** as the final exam for the course. **Registration must be completed by May 15, 2026.**
- **Required Score:** If a student receives an 80% in the course (which includes the Boost exam), the student is considered to have "passed" Boost Camp and may accelerate to Math 7H. If a student does not receive 80% or more in the course, the student must pass the corresponding Boost exam with a score of at least 70%.

If you have any questions or need further information, please contact the assistant principal at your child's middle school.

Sincerely,

Shane Frank

Director, Middle School Education
