

# Richland School District #400 Mastery/Competency-Based Credit Request Form

Date:	
-------	--

Student's Name:		Student Number:	
-----------------	--	-----------------	--

Students within the Richland School District may be granted competency-based credit upon demonstration of mastery of the learning standards and be awarded credit per RR 2413 based on:

- A. State assessments in math, English, and Science (note: Awarding competency credits does not permit the awarding of credit for the same learning twice. For example, awarding credit for the math Smarter Balanced Assessment (SBA) may be considered for students who were not successful in earning credit in their Algebra 1 or Integrated Math 1). However, students should not be awarded credit in a course for the same math learning standards.
- B. Nationally recognized assessments (i.e., world language proficiency exams)
- 
- C. Equivalency course of student – “learning experiences outside of school” that align to state learning standards, in accordance with WAC 392-410-300
- 
- D. Completion of the next highest-level course in a sequence of courses that includes a natural progression of the state learning standards from the previous course.

Option A, B, or C, please include details here:
