

THE COMPUTER SCIENCE AND INNOVATION FUND

LEADERSHIP GIFT CHALLENGE

THE OPPORTUNITY

A generous donor has committed \$500,000 to Princeton Day School and will match all inaugural gifts to the newly established Computer Science and Innovation Fund, creating the potential for \$1 million in total funding. Every gift receives a dollar-for-dollar match:

CONTRIBUTION	=	TOTAL IMPACT
\$5,000		\$10,000
\$25,000		\$50,000
\$100,000		\$200,000

WHY IT MATTERS

The Computer Science and Innovation Fund advances our vision for a future-ready PDS, one where students lead with curiosity, collaborate with purpose, and harness technology to shape a better world. Your support enables us to:

- **Establish a faculty chair in Computer Science and Innovation** to lead program design, mentor colleagues, and attract exceptional educators to this vital work
- **Build a cohesive PreK–12 curriculum** that evolves with the digital landscape and cultivates lifelong learning
- **Empower students to design creative, ethical solutions** that address human needs and real-world challenges through design thinking
- **Develop fluency in computational thinking and data literacy**, foundational to success across disciplines
- **Foster principled, collaborative leadership** through project-based learning and student-driven inquiry
- **Use immersive technologies** as tools for innovation, not consumption
- **Cultivate adaptability and a competitive edge** in a rapidly evolving technological world

FUND PRIORITIES

Your gift will accelerate:

- Curriculum innovation that bridges technical fluency with human-centered problem solving and maximizes the potential of existing STEAM spaces
- Faculty development in emerging technologies and cross-disciplinary approaches
- Student-led projects that spark creativity, ethical thinking, and bold experimentation
- A culture of ingenuity that inspires students to take initiative and lead with impact

JOIN OUR COMMUNITY OF INNOVATION

Help us ignite student potential and lead the next chapter of innovation at PDS.

To become a founding contributor to the Computer Science and Innovation Fund, please contact:

Jon Cormier P'29 '31 '34 Director of Advancement | jcormier@pds.org
