Summer Practice

Please use this summer practice packet to help your child practice and review the skills that he or she learned in Kindergarten. Children often regress during the summer months if they do not continue to practice reading, writing, and math fundamentals. Keeping your child's academic skills refreshed during the summer months will help ensure that he or she will be ready for the next grade.

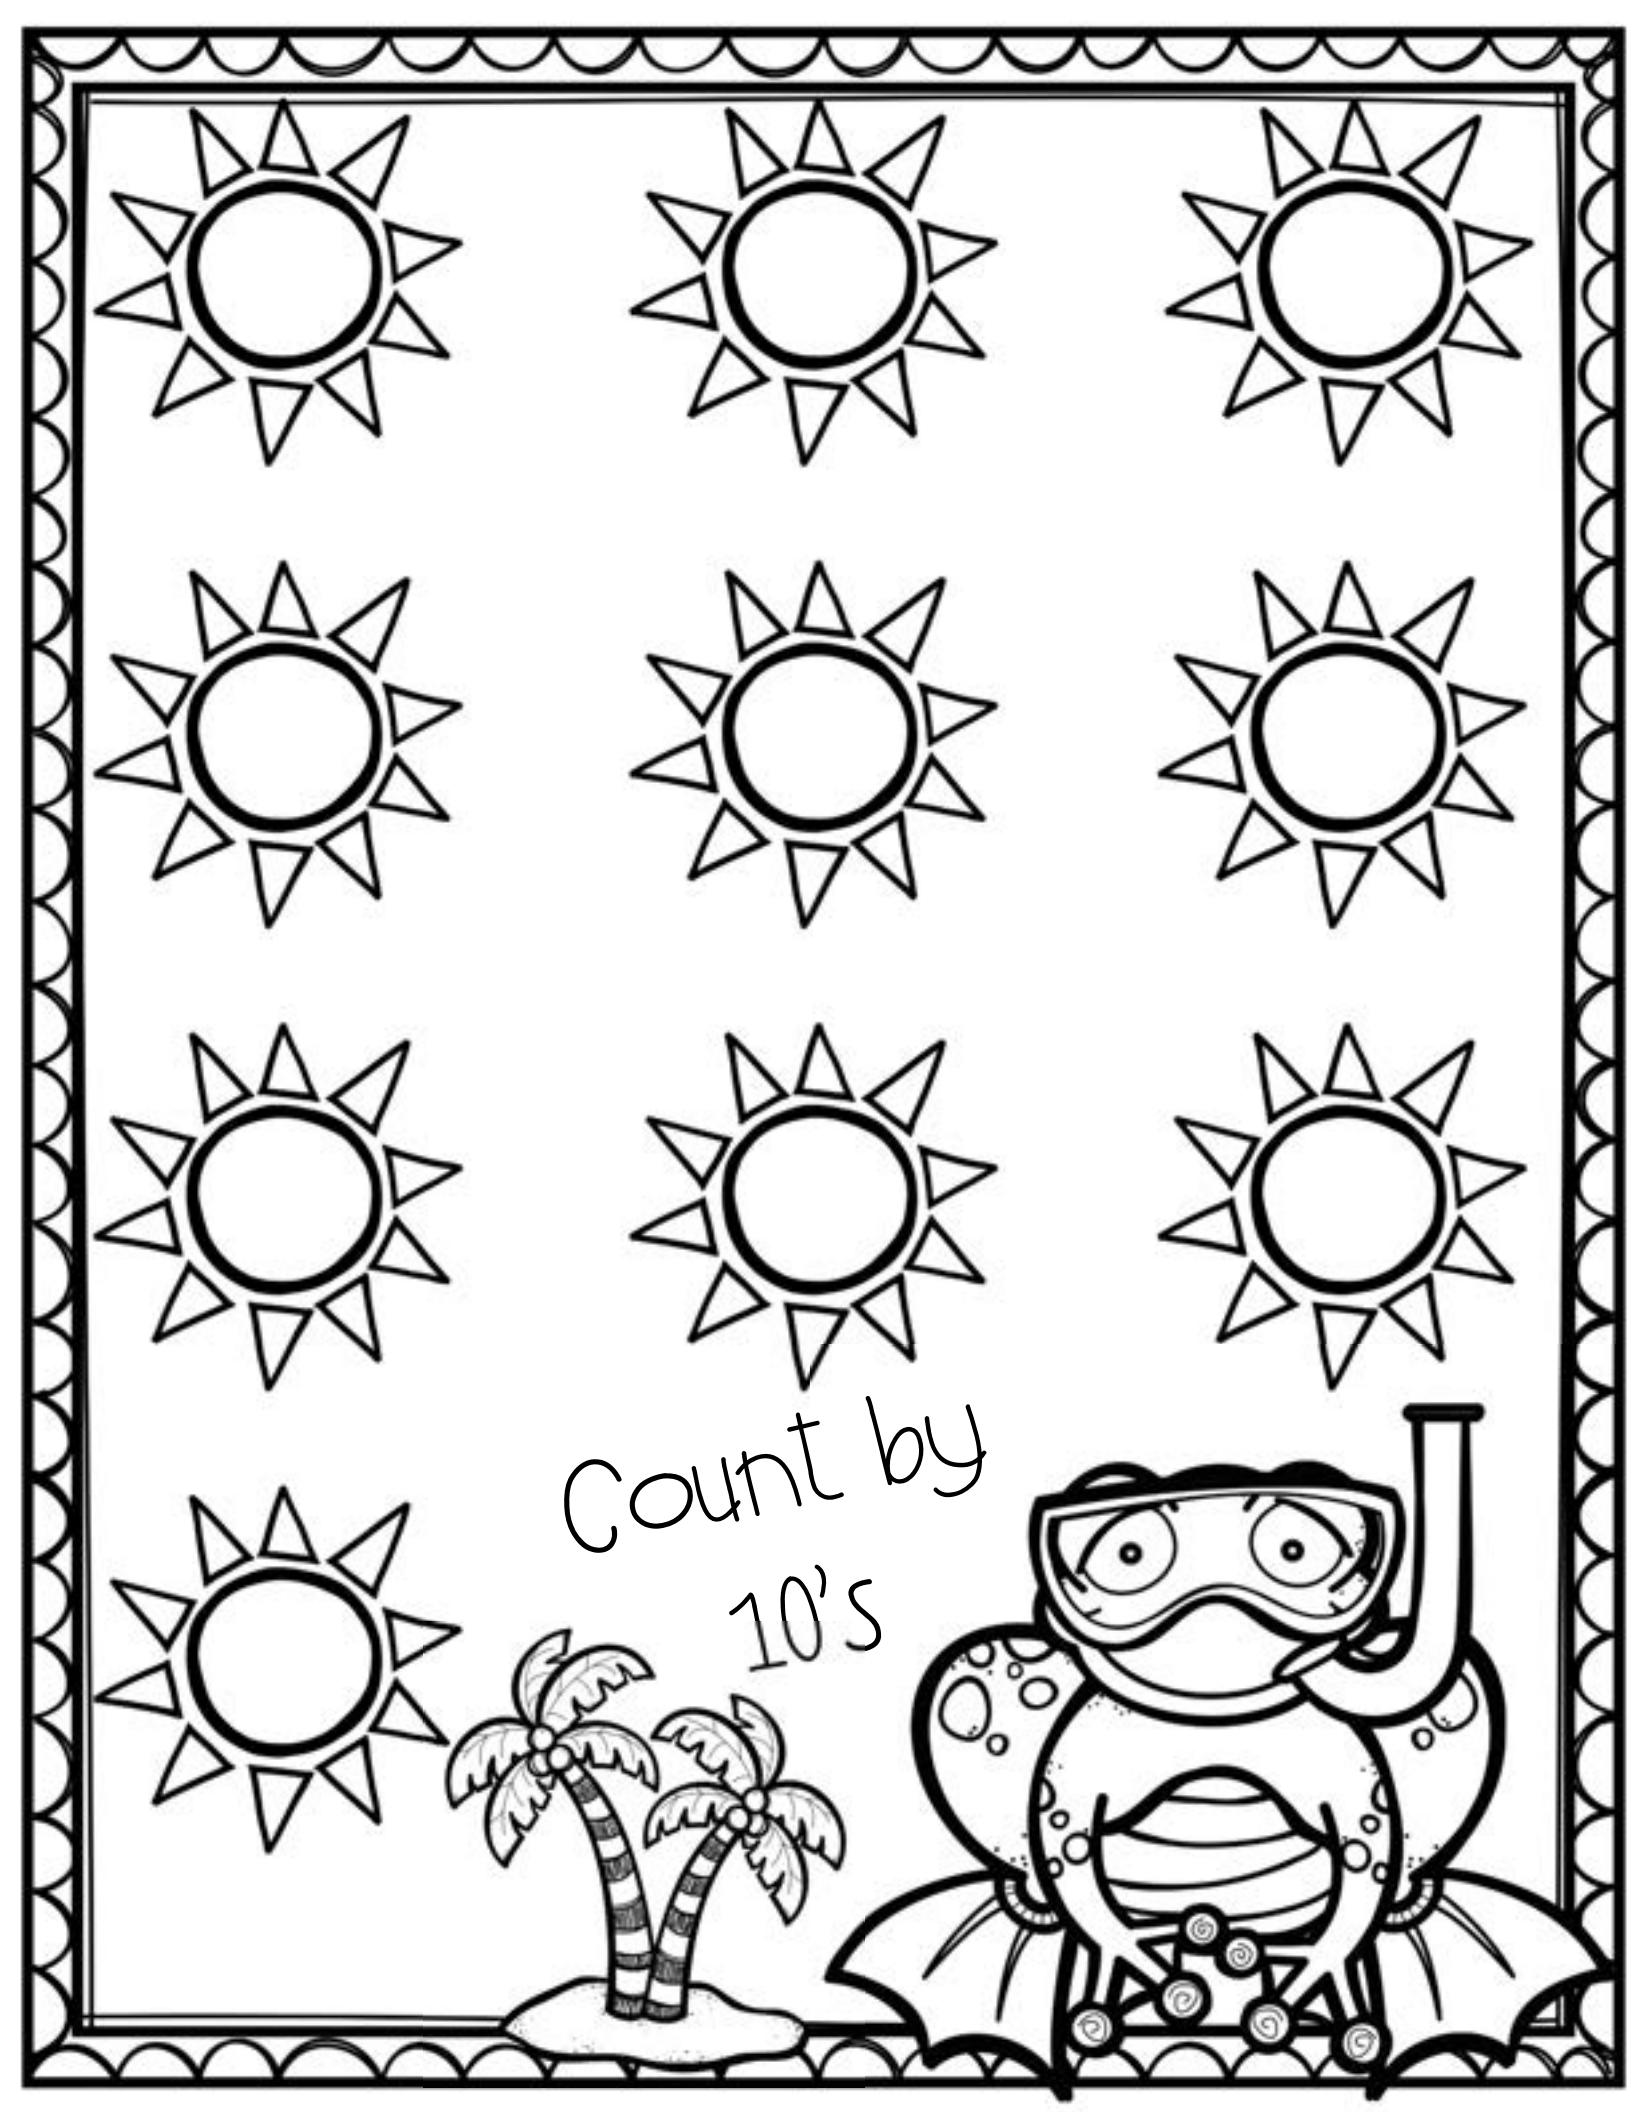

This packet includes 4 sections:

Math Review Printables
Communication Arts Review Printables
Summer Journal & My Favorite Summer Days Book
Additional Activities "Just For Fun"

Math Activities

Count by 10's

Sand Bucket Subtraction!

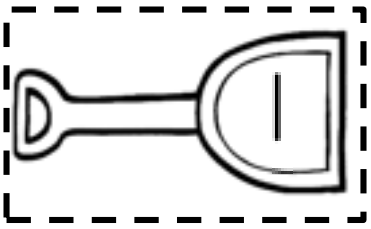

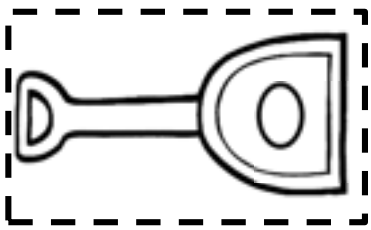

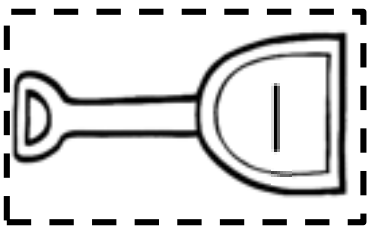

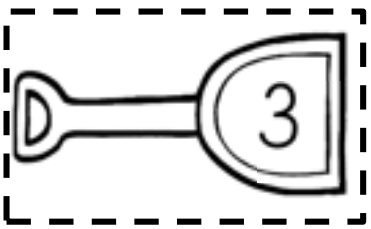

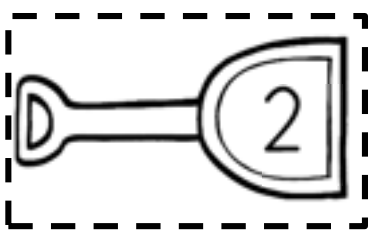

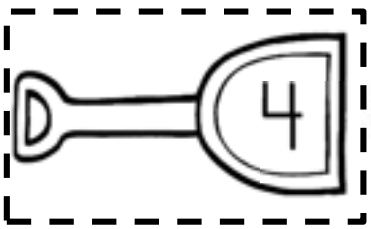

Add It Up!

ip

ig

it

dip	pig	hit	big	rip
dig	hip	lip	fit	wig

Cut out the CVC words. Sort them by word family and glue them into the correct column.

Read & Color

I see...

a yellow sun 

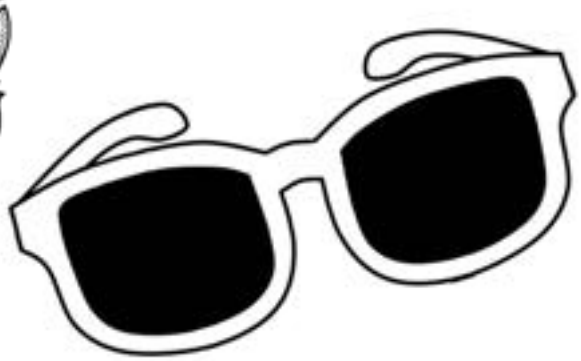

a red crab 

a green fish 

a pink octopus 

a blue seahorse 

Additional Activities

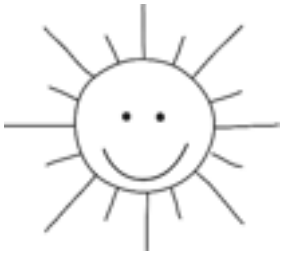

The following pages of additional activities can be used to help your child practice reading, writing, and math skills. Each page contains 6 different activities that could be used to review skills that Kindergarten students learn during kindergarten. As your child completes each activity, have him or her color in the sunshine beside the activity. When all of the suns have been colored in on a page, reward your child with a special treat.

Let your child go to the grocery store with you Have him or her create a grocery list before you go.

Practice addition using the flash cards. Every time you practice, your child should get a little faster.

Practice adding with a summer snack. Let your child count and add their snack.

Have your child count 100 pennies for you. If they can do it, give them a dollar!

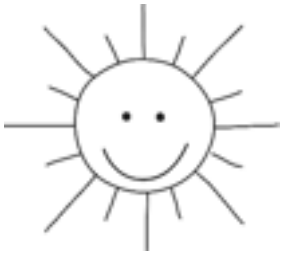

Take your child on a shape hunt. Let your child find objects that are 2 or 3 dimensional shaped.

Ask your child to write their numbers to 20 or even farther. Let them use markers, crayons, chalk etc.

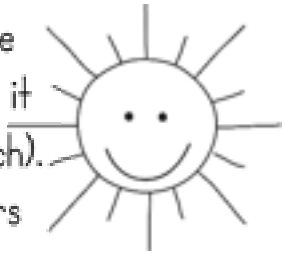

Have your child write as many words as they can. Set a timer and make it game.

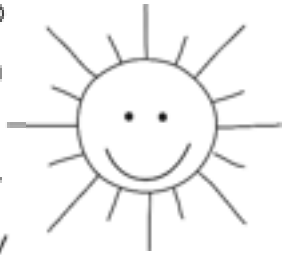

Take a trip to the library. Let your child find a book to read to you. Let your child tell you what the author and illustrator do.

Play sticky note memory with your child. Let your child write words on small post it notes (two times each). Flip all of the papers over and play a game of memory.

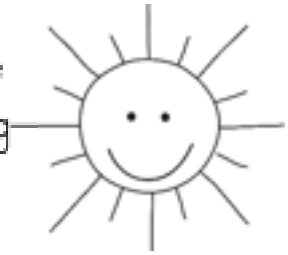

Play a dice addition game. You roll two dice and your child rolls two dice. Add the dots on each set of dice. The person with the largest sum is the winner. Tally each time a player wins to keep track.

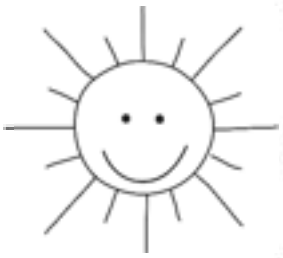

Give your child some play-doh. Call out a number between 0-20 and have him or her build that number with play-doh.

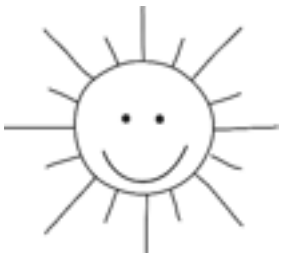

Let your child practice writing words in shaving cream.

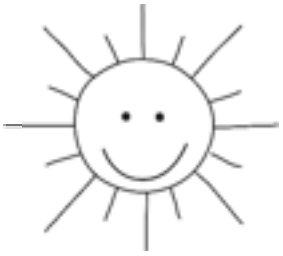

Write a letter to your teacher. Tell him or her what you have been doing, any special trips you have taken, or any fun activities that you have been participating in.

Look through magazines. Cut out pictures of objects that begin with each letter of the alphabet.

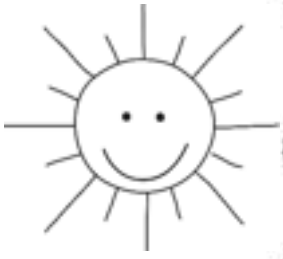

Read your favorite book. Draw a picture and write about your favorite part of the book. Include your favorite character.

Play "I spy" something that rhymes with a certain word. Let your child try to find something that rhymes with a word you tell them.

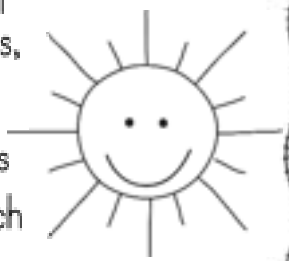

Take a walk outside. Make a list of what you see and hear on your walk.

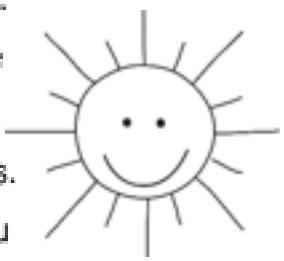

Let your child write his or her numbers as far as they can by 1's and 10's using sidewalk chalk on a sidewalk.

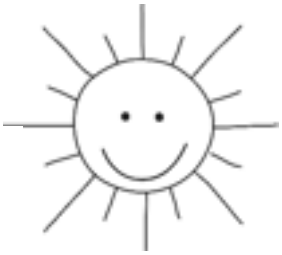

Give your child a group of small objects (beads, beans, etc). Let your child count the objects for you pointing to each object as they count.

Take your child to the grocery store with you. Let your child practice weighing fruits and vegetables on the scales. Have your child tell you which is heavier, lighter, etc.

Give your child popsicle sticks or toothpicks. Let your child practice creating various shapes as you call them out. Talk about the sides and corners of the shapes.

Read your child's favorite book to them. Let your child re-tell the story to you. Let them identify the beginning, middle, and ending events.

Give your child a newspaper. Let your child cut out words that he or she can read.

Play a card game of war with your child. Flip over two cards, the person with the largest card keeps both cards.
