[Apple Store](#)

[Google Play Store](#)

# Launch App & Login

- When logging in you will be asked to enter your email.
- This email should be the one that is in PowerSchool for your students contact info.
- If the app can't find an email for you please contact your student's school so they can let you know what email is in PowerSchool.

**Welcome to GoGuardian**

To login, enter your email for authentication

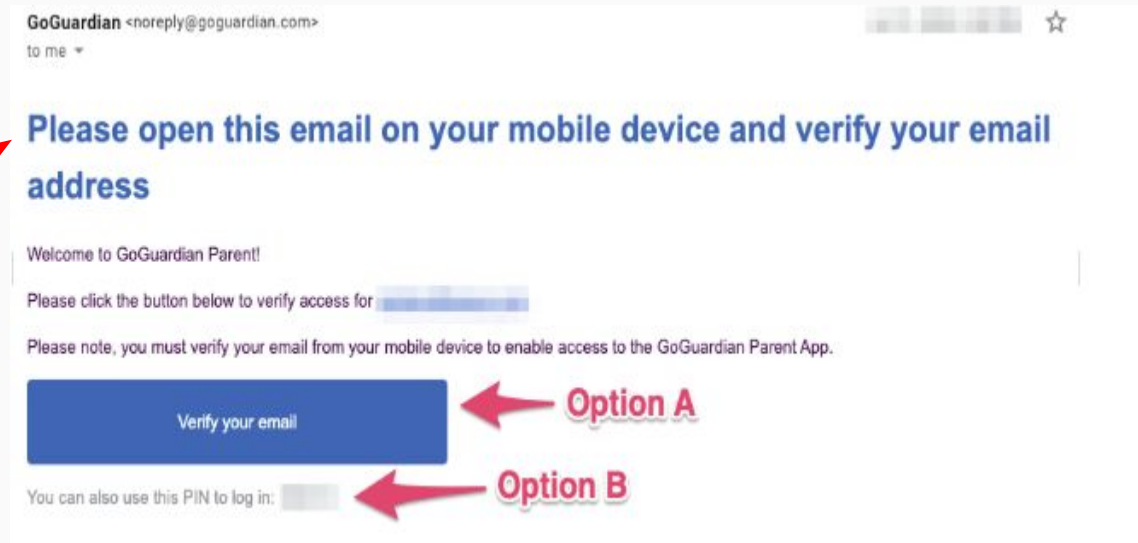

Enter

# Email Verification

After successfully entering the email address, a prompt will appear "Please check your email - Click the link in your email to log in."

## GoGuardian Verification Email

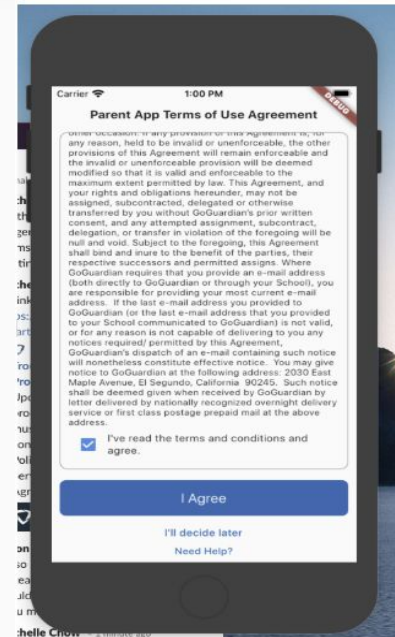

- A. You will need to login to your email on the device that has the app installed and click the verification link there.
- B. They do offer a PIN you can enter that is in the same verification email, in case the link does not work for you.

# Review Terms & Conditions

After successfully entering the email address, proceed to read the terms and conditions for GoGuardian Parent by navigating to the bottom of the text box. After reading the terms and conditions, press the checkbox to confirm review of the text and press the "I Agree" button.

NOTE: If the "I Agree" button is not present and shows as "Read to the bottom" be ensure that the text has been reviewed by reading to the bottom of the text within the text box and press the checkbox to confirm the text has been reviewed.

# Explore GoGuardian Parent (Summary Page)

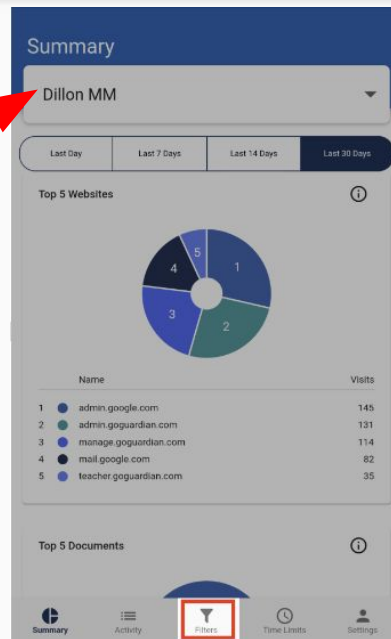

After successfully signing in, choose a student account to review activity.

If you have multiple students you can click this drop down to select which student you want to view.

The home page or summary page will have the top five most visited Websites, Google Documents, and App/Extensions.

If you scroll to the bottom of the Summary Page you can see how many time your student had their screen blocked by their teachers.

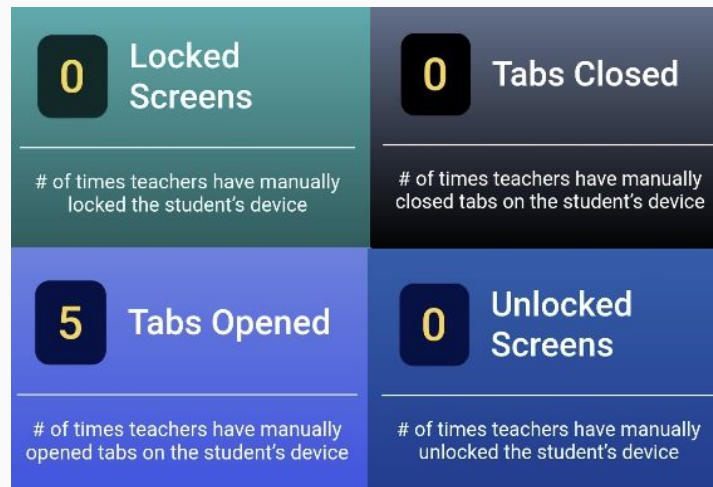

**Important Note: All of this internet data being tracked can only be collected if your student is using a district provided chromebook. We aren't able to see you students internet data on Non-District devices.**

# Summary Page - Teacher Interventions

The Summary Page also provides information on Teacher Interventions for your student. This section will show how many times a teacher locked or unlocked your student's screen, or opened and closed tabs for them.

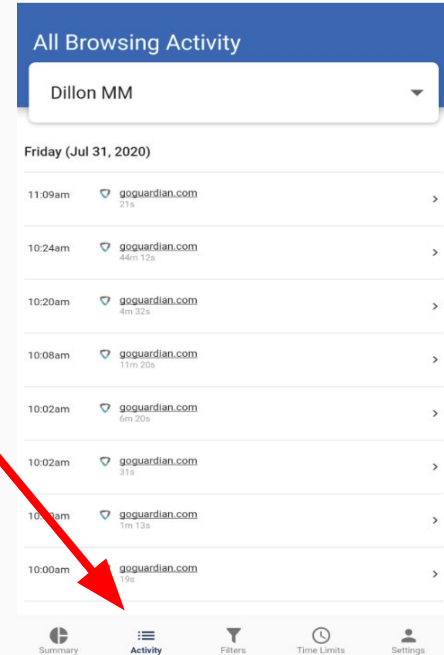

**Note:** Go Guardian only shows us the amount of times the teacher had to intervene. Unfortunately it won't let us see which teacher or when it happened.

# Check Browsing Activity

The Activity tab on the bottom of your screen lets you look at your students search history.

You are only able to see the last 30 days of search History.

# Configure Filtering Settings for your Children

GoGuardian Parent can also allow you to enforce which sites your children cannot access while considered "out of school,".

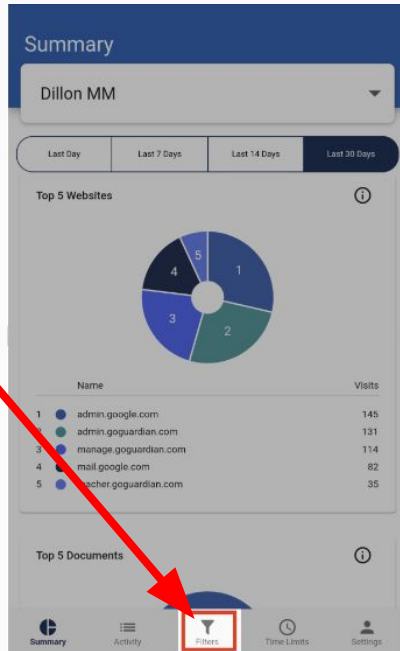

It also allows for on demand pausing of internet access for your student, as well as scheduling specified periods of no internet access.

Our School hours for GoGuardian are set from 7:30 am to 4:00 pm Monday through Friday. During these time you won't be able to set filtering rules for you student because it is during school hours.

**Important Note: All of following filtering settings will only work if student is using a district provided chromebook. We aren't able to use GoGuardian to restrict your student on Non-District devices.**

# Filtering Settings - Website Filtering

Press the middle icon at the bottom of the app to open the Filters menu.

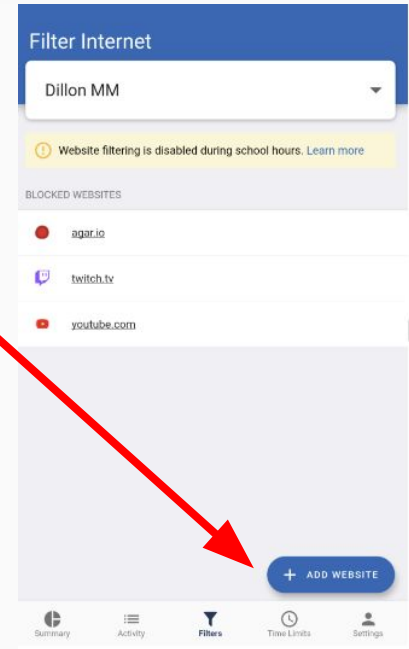

This screen will show you what websites you added to be blocked.

To add a website tap the blue button at the bottom right corner of the of the

This is will take you to a screen where you can add websites to block.

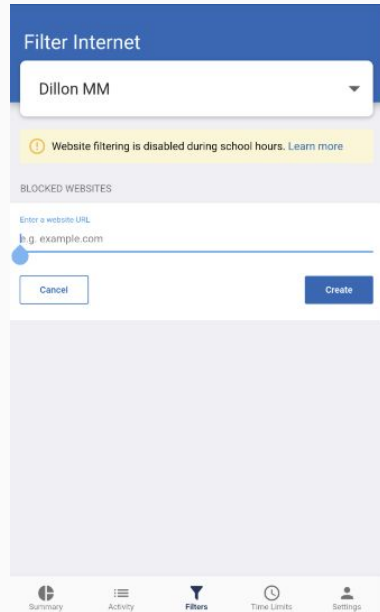

**Note:** Your filters won't be able to override the districts filters during school hours.

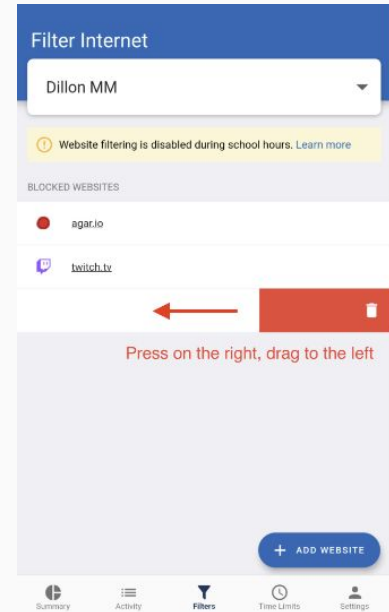

# Filtering Settings - Website Filtering Continued

Type in the website you want to block. Then press Create.

**Note:** It may take up to 2 minutes for student browsing to be affected by GoGuardian Parent filtering once a change is made.

Delete a filter by pressing the area to the right of the site and dragging it to the left. The row will be highlighted in red and will be deleted after sliding it to the left.

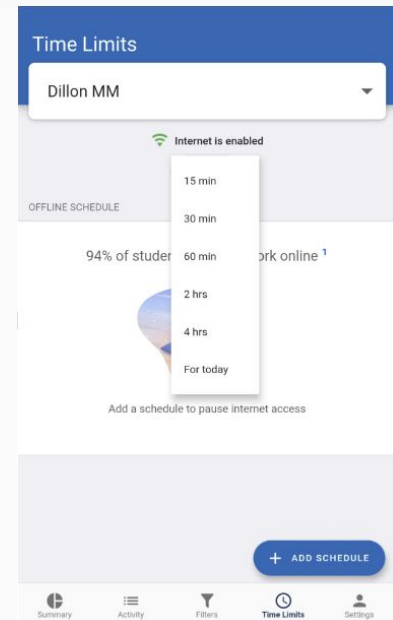

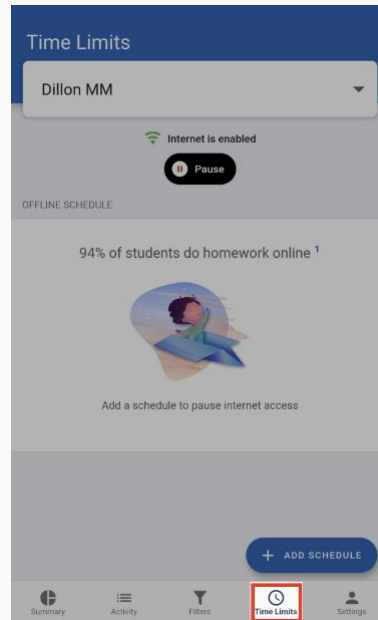

# Filtering Settings - Pausing Internet

When outside of school hours you can pause your students internet access.

You can do it for the preset time amount or all day.

When turned on your student will get a block page any time they try to open a web browser tab or window.

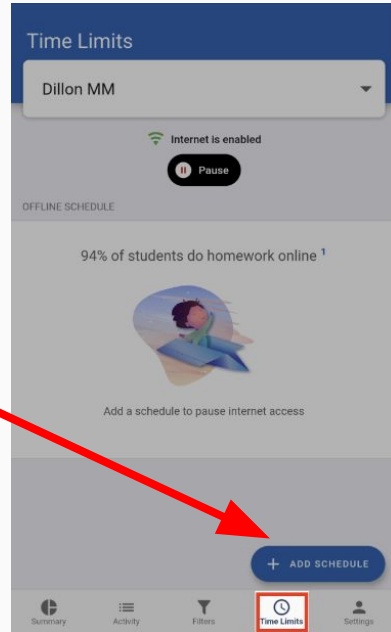

Press Resume on this same screen when you want to allow access again.

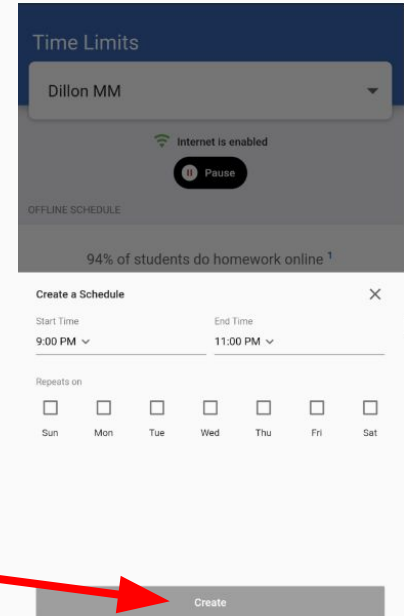

# Filtering Settings - Pausing Internet Schedule

While your student is outside of school hours you can pause internet access on a specified recurring schedule.

Click on the blue button at the bottom right.

Create a recurring schedule by specifying start time and end time of when the internet is to be disabled as well as the day(s) of the week you'd like the start and end times to apply to. Then click Create

# Filtering Settings - Pausing Internet Schedule Continued

For overnight scheduling to pause internet during the late evening/early morning, create two schedules for each day - for example 8:30 PM to 12AM and 12AM to 7:30AM each day.

This screenshot shows what that would look like.

You will need to create two different schedules for this. One with all the morning times and one with all the evening to midnight times.
