STRAWBERRY FUN FACTS

Strawberries are the only fruit that wear their seeds on the outside. The average berry is adorned with some 200 of them. No wonder it only takes one bite to get seeds stuck in your teeth.

Strawberries aren't true berries, like blueberries or even grapes. Technically, a berry has its seeds on the inside.

California produces some 80% of the strawberries in the U.S. They grow about 2 billion pounds of the heart-shaped fruits per year.

Blend fat-free or low-fat yogurt with fresh or frozen strawberries for a sweet smoothie.
