Course Plan Administration ☆

Course Plan Administration

This tool is used to perform batch operations on multi-year student course plans and can mass add/remove/replace courses, calculate Graduation and Academic and post the planned courses to Course Requests for scheduling.

In the Context Switcher, select a specific calendar to update Course Plans for just that school, or select All Schools to update Course Plans for all -modifiab

Select Mode

Update Student Status

Student Status will be updated based on the requirements set in Academic Plans. Status updates are dependent on the completion of set requirements.

This process is complex and job status can be monitored in Batch Queue.

Activity Registration-Wait List

Activity Monitor ☆

Registration Open Date: (Required)

01/01/2000

Waitlist Notifications

Add custom portal notifications for guardians and students. These will be triggered based on certain dates or actions taken within the waitlist. Generic text for the notifications will be provided, but can be customized if desired. All notifications will be prefaced with "Activity Waitlist Update for First Name Last Name".

Send a notification when a student is approved:

Enter Notification Text: (Required)

You can now register for Baseball.

Send a notification when a student is removed:

Enter Notification Text: (Required)

You have been removed from the Waitlist for Baseball.

Send a notification when registration closes:

Enter Notification Text: (Required)

Registration for Baseball has closed.

Business Office Integration

Business Office Synchronization ☆

System Settings > Business Office Integration > Business Office Synchronization

API Credentials

Check Campus Staff Data

Campus staff integration requires that an employee's staff number in Campus matches the employee's staff number in your HR system. If staff numbers do not match the synchronization process will create duplicate staff members in Campus. To help identify staff number issues in Campus you can click on 'Check Campus Data' to get a report that identifies the staff that have no staff number and any duplicate staff numbers. You may need to fix these issues in Campus before continuing the synchronization process. You can run this report as many times as you wish.

Check Campus Data

Staff Synchronization

-  Start Transfer
-  End Transfer
-  Validate
-  Commit

Start Transfer

Start Transfer allows the transfer and collection of staff member data from the HR System for comparison and validation against staff member data contained in Campus.

The data transfer will be initiated by the HR System vendor.

Start Transfer

Who can Link Accounts?

Below is the list of states where the option to link accounts is currently available:

- Arizona
- California
- Colorado (not available in all districts)
- Connecticut
- Delaware
- District of Columbia
- Idaho
- Illinois
- Indiana
- Kansas
- Maryland
- Massachusetts
- Michigan (not available in all districts)
- Minnesota
- Missouri
- Nebraska
- New Hampshire
- New Jersey
- New Mexico
- New York
- North Carolina
- Ohio (not available in all districts)
- Oklahoma
- Oregon
- Pennsylvania
- Rhode Island
- Tennessee
- Texas
- Utah
- Vermont
- Virginia
- Washington
- Wisconsin
- Wyoming

This option only applies to parents and students who have accounts in multiple school districts.

Cross Site Enrollment

- 1.All Course field values from the Serving School are being passed to the Home School. On the UI, those fields should now be unlocked and editable by Home School users with Write tool rights to Course Information.
- 2.Updates a value on any field, it does not get updated back at the Serving School, nor are there any tracking changes in the notifications or logs

The screenshot displays the 'Standards Bank' interface in the Infinite Campus system. The top navigation bar includes the Infinite Campus logo, user information (25-26 Harrison High), and notification icons. A breadcrumb trail shows 'Grading & Standards > Standards Setup > Standards Bank'. The main area is divided into four steps: 1. Select Source, 2. Select Frameworks (current step), 3. Set Up Frameworks, and 4. Confirmation.

In the 'Select Frameworks' step, users are prompted to 'Select one or more standards framework(s) to import.' Below this is a search section titled 'Standards Framework Search and Filters'. It features a search input field containing 'Wisconsin Ess', a status filter dropdown set to 'Implemented / Adopted', and a 'Search & Filter' button.

The search results show three frameworks:

Framework Name	Status	Updated	Creator	Publisher
☐ Wisconsin Essential Elements for English Language Arts	Implemented / Adopted	July 02, 2025	Wisconsin Department of Public Instruction	Wisconsin Department of Public Instruction
☐ Wisconsin Essential Elements for Mathematics	Implemented / Adopted	July 02, 2025	Wisconsin Department of Public Instruction	Wisconsin Department of Public Instruction
☐ Wisconsin Standards for Business and Information Technology	Implemented / Adopted	October 30, 2024	Wisconsin Department of Public Instruction	Wisconsin Department of Public Instruction

At the bottom right, there are three buttons: '< Previous', 'Cancel', and 'Set Up 0 Frameworks >'.

SSN Purge ☆

[System Settings](#) > [SSN Purge](#) > SSN Purge

WARNING: This action CANNOT be undone.

The SSN Purge Tool will permanently delete the listed core Social Security Number values for the entire district and hide corresponding core Social Security Number fields from the interface so that no new data can be added. There is no option to restore. Districts with SSN reporting requirements should **NOT** run this tool.

This tool **WILL NOT** remove SSN data stored in custom fields or any other fields not listed.

This tool is **NOT** available in KY, GA, IN, TX, MO, or VA.

Data change tracker retention policies will be adhered to when this tool is used.

Groups/Feeds

Groups and Feeds

- Ability to create a Group (outside context of a section)
- Can include anyone with an Infinite Campus account
- Ex. Softball team, chess club, Parent/Teacher Org, all teachers, 9th grade Math PLC, etc.

Gender/Pronoun Support

- Resolve issues with the naming of the pronoun fields for letters
- Add a global setting for indicating which gender (if any) displays in the UI
- Report logic to respect settings and tool rights to display or not gender and if gender required prevent print unless proper gender tool rights

Scheduling Board

1. Scheduling Board add load balance options for programs.
2. Scheduling Board, I want to fine tune Load performance when using Proceeds/Follows & Before/After, To define period or term application.
3. Scheduling Board connect role to section via Teacher Planner.
4. Strengthen Term/Section Lock so Scheduling Board can be used in the Active Year so that I can schedule my students in future term.

Workflow/Hall Pass

• Limiting the number of hall passes students can request within a given timeframe.

• The ability to issue future hall passes.

The screenshot displays a web application for managing student attendance. The main interface is titled 'Location Capacity View' for 'Newton Senior High School - Library'. It shows a table with columns for Grade, Status, Duration, and Scheduled Course. A list of students is visible on the left, including Benza, Katie; Aagard, Mar; Anderson, Sa; and Arauz, Katie. A 'History' section is also present. A 'Sign Out All' dialog box is open in the center, asking: 'You are signing out all present students, would you like to give them each a default Hall Pass?'. The dialog has three buttons: 'Use default Hall Pass', 'Sign off without Passes', and 'Cancel'. The 'Sign off without Passes' button is being clicked by a mouse cursor. The background interface includes a 'Capacity' indicator (4/60), an 'Active Students' list, and a 'Check Out' button for each student entry.

Grade	Status	Duration	Scheduled Course
12	Checked In: 9:33 AM	25m 14s	Schedule Information not Available
12	Checked In: 9:56 AM	1m 53s	Scanning
12	Checked In: 9:57 AM		10:00 AM - 11:25 AM
12	Checked In: 9:33 AM		

Custom Forms

- Portal Initiation of Forms and Alerts
 - Users will be able to look through a bank of forms to find ones that are applicable to them or their student, fill them out and submit them through the portal, without needing an admin to assign the form to them first.
