**Kristina Wallace**  
 Nutrition Services Officer

### **CCSD Strengthens Nutrition Services Team with Appointment of Kristina Wallace**

**Charleston, SC (March 30, 2026)** - Charleston County School District (CCSD) announces the appointment of Kristina Wallace as Nutrition Services Officer, where she will support the district's Office of Student Nutrition in delivering high-quality, efficient meal service to students across the district.

Wallace brings 14 years of experience in food and nutrition, along with extensive expertise in state- and federally funded programs, staff training, and large-scale operations. She holds a Bachelor of Science in Food and Nutrition from Fort Valley State University and a Master of Education with a concentration in Nutrition Education from Framingham State University.

She currently serves as Director of Student Nutrition in Colleton County School District, where she has led programs focused on compliance, efficiency, and student wellness. Her work has included maintaining high health and safety standards, securing equipment grants, and implementing cost-saving strategies that support long-term sustainability. According to her resume, she also consistently achieved 100% health inspection scores and strengthened operational systems across the department.

Prior to that role, Wallace served as interim director over both food service and housekeeping operations for the State of South Carolina, overseeing multiple teams and ensuring compliance with state and federal regulations. She also worked as a training specialist in the Bibb County School District, where she developed and led training programs for more than 300 employees, helping improve consistency, compliance, and staff retention.

In her new role, Wallace will work alongside district leadership to support daily operations, strengthen systems, and enhance service delivery across CCSD schools.

“We are excited to welcome Kristina to our team,” said Angela McLaughlin, Executive Director of Student Nutrition. “She understands the importance of both strong systems and strong people, and her experience will help us continue delivering high-quality service to our students and school communities.”

Chief Operating Officer Jeff Borowy emphasized Wallace’s operational excellence and strategic mindset. “Kristina brings a rare combination of vision and execution,” said Borowy. “From managing multimillion-dollar budgets to achieving 100% compliance and inspection outcomes, she has consistently delivered results at the highest level. Her leadership will strengthen our systems and ensure we are providing the very best for our students every single day.”

Superintendent Anita Huggins highlighted the broader impact Wallace will have across the district. “Kristina Wallace represents the very best of what we strive for in Charleston County School District,” said Huggins. “Her passion for student wellness and commitment to excellence make her an incredible asset to our team. She understands that when we nourish our students, we empower their future!”

#### **About the Charleston County School District**

Charleston County School District (CCSD) is a nationally accredited school district committed to providing equitable and quality educational opportunities for all its students. CCSD is the second-largest school system in South Carolina and represents a unique blend of urban, suburban, and rural schools spanning 1,300 square miles along the coast. CCSD serves approximately 50,000 students in 88 schools and specialized programs.

CCSD offers a diverse portfolio of educational options and specialized programs delivered to the students of CCSD through neighborhood, magnet, IB (international baccalaureate), Montessori, and charter schools and programs. Rich educational opportunities for students include programs in science, technology, engineering, and mathematics (STEM); music and other creative and performing arts; career and technical preparation programs; military; dual credit; and many more.
