All conditions, requirements, materials and workmanship are to be as described in the Contract Documents unless specifically stated otherwise. This Addendum consists of one page.

General Notes:

- None

Questions and Answers:

Q1: A question came up from my electrician on the light poles. In reading addendum 1, it reads MSD will supply the light poles, bases, conduit and the contractor to provide trenching and backfill. Reading this to assume, the base will be built to accept the MSD pole, and the electricians scope is to only set the pole on the MSD base and pull wire?

A1: Contractor Scope:

- Trench for conduit installation
- Provide bedding for conduit and perform all backfilling
- Backfill around light pole foundations
- Bore holes for the light pole foundations

MSD Scope:

- Pour the concrete bases
- Run conduit
- Pull and terminate wiring
- Provide and install Sonotube (forming tubes)
- Provide and install the light poles
- We will provide and install all ground boxes.
