2026-27 Non-Public Schools Fall Enrollment Count Form Layout

Purpose:

Section 22-1-114 of the Colorado Revised Statutes allows Colorado's public-school districts to collect, not more than once per month, certain information from non-public schools within their districts to meet their responsibilities for the compulsory attendance of eligible children.

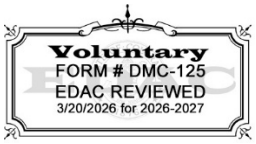

The pupil membership count becomes a significant component in computing allocations for ESEA, CPP, Special Education, Nutrition Programs, etc. The data will be used to generate a count of non-public school students in the state of Colorado.

Important:

Non-Public Schools Fall Enrollment Count is collected through a web form.

File Notes:

- Changes from the prior year are emphasized with yellow shading.
- * indicates required fields

Data Field List:

Name of Field	Definition	Format	Note
Email*	The email address of the person completing the form.	Text	
First Name*	The first name of the person completing the form.	Text
