Open: April 4, 2026

Close: Until Position is Filled

Speech Language Pathologist (Birth–5 Early Intervention & Evaluations)

We are looking for a collaborative, high-energy **Speech-Language Pathologist (SLP)** to join our multi-district team. This role is unique—you'll be working with families, young children, and school-aged transitions, ensuring that our youngest learners get the support they need during their most critical developmental years. This position involves providing early intervention services and conducting special education evaluations.

If you love the variety of working across different environments and thrive in a team-based, consultative model, we'd love to meet you.

Key Responsibilities

- **Birth to Two (B-2) Intervention:** Provide direct and consultative services in "natural environments" (homes, childcare, or community settings) using a coaching model with caregivers.
- **Birth to Five (B-5) Evaluations:** Conduct comprehensive speech and language evaluations as part of a multidisciplinary team to determine eligibility for Part C and Part B special education services.
- **IEP/IFSP Development:** Collaborate with families and staff to write meaningful, functional goals for Individualized Family Service Plans (IFSPs) and Individualized Education Programs (IEPs).
- **Cross-District Collaboration:** Travel between partner districts to support students and consult with early childhood special education (ECSE) teachers and service providers.
- **Transitions:** Support families as they navigate the transition from Part C (Early Intervention) to Part B (School-Based) services at age three.

Full-time salary for this position is \$60,000-\$88,000.

This position is open until filled
