

SSFUSD Organization Chart

2025-26 District Office

How to Read This Organizational Chart

- **Why did we create this chart?** This org chart is designed to provide clarity and transparency about how the District Office is structured to support schools across SSFUSD.
- **How often is it updated?** The chart is maintained by Human Resources and will be updated and shared with all SSFUSD on an as needed basis.
- **Who is included?** We have included Cabinet and all of their direct reports, most of whom serve as department leads. We wanted keep this org chart manageable, which is why we did not include all district office team members. However, we know that site leaders will work with many team members across the district office who are not included here. A full list of District Office team members can be found in the [2025-26 SSFUSD Org Chart](#).
