About Ivy Camps USA

At Ivy Camps USA, we're passionate about shaping the leaders of tomorrow by inspiring campers to explore new passions, embrace challenges, and grow with confidence. Our summer camps are designed to spark curiosity, build essential skills, and make learning exciting through fun!

With unique camp themes and carefully crafted programs led by enthusiastic instructors from top US universities, our camps inspire fearless exploration, collaboration, and creativity—all while creating unforgettable memories.

We can't wait to bring these incredible experiences to your child this summer!

Our Values & Priorities:

Foster a caring
global community

Inspire curiosity
and learning

Promote fearless
experimenting

Value people and
encourage diversity

Cultivate success
through fun

CAMP LEARNING TOPICS:

Week 1: June 15 – 19

Ages 10 – 14: Mythbusters & Forensic Science

Get ready for thrilling experiments, myth-busting, and mystery-solving! Design and conduct safe experiments, analyze your data, and think like a real scientist. Step into the role of a forensic investigator as you dust for fingerprints, examine handwriting, and collect clues to crack the case. By the end, you'll present your findings like a true pro!

Ages 10 – 14: Build Your Own Business

Bring your big ideas to life! In this exciting program, you'll create your own business and product prototype to solve real-world problems while exploring branding and marketing. Design a logo, craft an ad, and produce a commercial—then launch your brand in style!

Ages 15 – 17: Intro to Business & Marketing

In Intro to Business & Marketing, you'll create and pitch your own business idea while exploring strategy and branding. Design a logo and advertisement, and build real-world pitching and problem-solving skills.

CAMP LEARNING TOPICS:

Week 2: June 22 – 26

Ages 10 – 14: TED Talks: Storytelling & Presenting

Step up your presentation game and master public speaking and visual storytelling! You'll create engaging slides, craft compelling messages, and deliver a TED-style talk that captivates your audience. By the end, you'll confidently present a polished, impactful speech.

TED

Ages 10 – 14: Big Choices, Brave Voices: Making Decisions as a Leader

Step into the role of a leader and decision-maker! You'll explore your leadership style, strengthen teamwork through interactive activities, and learn smart decision-making strategies from psychology and economics. By the end, you'll present on a leader you admire and apply tools like A/B testing and the PACED framework to solve real-world problems.

Ages 15 – 17: In Leadership: Building a Better Tomorrow

In Leadership: Building a Better Tomorrow, you'll identify real-world problems and take the lead in creating positive change. Using the design cycle, you'll brainstorm, build, and present a solution to a community or environmental issue. Along the way, you'll strengthen your empathy, collaboration, and critical thinking skills—finishing with a prototype that shows how leadership can make a real impact.
