Parent and Family Engagement Policy

2025 - 2026

Lee Antonello Elementary School, along with parents of students served under Title I, has collaboratively developed a Parent and Family Engagement Policy. The school will host annual meetings at various convenient times for parents to evaluate this policy. Two parent presentations took place on May 22, 2025, and August 21, 2025, during School Organization Team (SOT) meetings. Staff and parents participated in the Annual Title I presentation on August 8, 2025. Translation services were provided for families during these meetings, and parents could also join via Google Meet. Parents were informed about the meetings through Class Dojo, ParentLink, and school flyers. For access to our school's Title I Annual presentation, please visit our website at <https://www.leeantonello.org/>.

The Parent and Family Engagement Policy, developed by the school staff and parents, can be found on our school's website or printed upon request for parents who could not attend the meetings.

Lee Antonello Elementary School has partnered with the School Organization Team (SOT) committees to enhance parent involvement in the planning, reviewing, and improvement of Title I programs, including the School Improvement Plan, School Operational Plan, and the Parent and Family Engagement Policy throughout the 2025-2026 school year. During parent meetings at Lee Antonello, staff and parents will review and evaluate school plans and documents to ensure ongoing growth and progress. The Annual District-Wide Survey responses will be analyzed to gather feedback and suggestions for enhancing school practices. Lee Antonello will provide parents with opportunities to offer suggestions in both print and electronic formats. The feedback received will help determine the focus topics for future school meetings, events, or practices. Refer to the Survey Results for further discussion
<https://aarsiapps.ccsd.net/survey/surveys/districtwide/results/2425/school/369/results>.

An analysis of the 2025 Winter District Parent Survey revealed that 81 families participated in the 2024-2025 survey, a 6% increase from last year, compared to only 48 families, 8% of the school population in the previous year. Parents received the survey results during SOT meetings, monthly meetings, and Open House events. The survey indicated that 98% of parents feel welcome at the school, and 97% believe that teachers care about their child. Among participating parents, 83% stated that the school should actively seek parental input before making important decisions. Despite these positive results, the low response rate may not accurately reflect the community's views. Antonello will continue to improve efforts to increase parental participation in the school-wide survey. Our focus during the 2025-2026 school year will be to boost the involvement in the Annual School Survey and SOT meetings to assess parent perceptions. Parents received

information through various channels, including meetings, parent conferences, school events, and newsletters. Strategies to enhance parent and student participation will include providing incentives and raising awareness through ParentLink, Class Dojo, the school website, and the school marquee. All parents will have access to district computers to complete the survey during our fall and winter parent engagement activities.

The Education Involvement Accords and Code of Conduct forms are integrated into the registration process via Infinite Campus. Parents must review the Accords prior to completing their child's registration. Administrators and teachers will refer back to the Accords during parent and student conferences to emphasize the collective commitment to student success.

Administration and staff will provide assistance to parents to help them understand topics such as the Nevada Academic Content Standards (NVACS) and state and local assessments (SBAC, WIDA, and MAP), including evaluation results, such as the School Performance Framework and Growth Model Data. They will also inform parents about relevant Title I requirements, such as monitoring their students' academic progress and collaborating with school staff to enhance student achievement. The school will organize community and parent events to inform parents about upcoming changes that may affect both CCSD and Lee Antonello Elementary School. Parents will receive communication through parent meetings, Meet and Greet events, school reminders, homework assignments, and updates via Class Dojo and ParentLink. Parents can request assistance for literacy support to help with reading at home, using programs such as Waggle. In-school tutoring programs will be available to assist struggling students in meeting the Nevada Academic Content Standards; however, due to insufficient funding, after-school tutoring will not be possible this year without grants. Upcoming events include "Donuts with Grownups: Come Read with Me" for grades K-2 on August 29 and grades 3-5 on September 5, followed by Parent-Teacher Conferences on October 20, 2025, and the Fall Festival on October 24.
