

## 2026 Willis ISD Enrichment Camp Descriptions

	Camp Name	Grade	Description
<b>Week 1</b> June 1-4	Theatre Camp	Elementary	Students will learn about all aspects of theater, from sets to costumes to performance. Students will conclude the camp on Thursday afternoon with a performance for parents.
	Gardening Camp	Elementary	How are fruits and vegetables grown? Over the course of the gardening camp, students will learn how to start a garden and how to care for plants. Students will plant seeds and bring them home to care for them and watch them grow.
	Global STEAM Adventure	Elementary	Travel the world without leaving camp! Explore Mexico, Brazil, Japan, India, Egypt, Australia, France, and Kenya through hands-on STEAM challenges, cultural games, creative projects, and global foods—building, designing, moving, and discovering how people live, solve problems, and celebrate across the globe.
	Math Olympics	Elementary	Get ready to go for the gold at Math Olympics Camp - where learning meets friendly competition and nonstop fun! Campers will team up for exciting math challenges, play fast-paced math games and build skills through hands-on activities that boost confidence and creativity. Inspired by real math competitions and team problem-solving events, kids will race through outdoor relays, tackle puzzles and celebrate their victories together. In between events, they'll get crafty with math-themed projects, enjoy delicious math-inspired snacks and make new friends along the way. Whether competing, creating or just having fun, every camper will feel like a champion!
	Masterpieces in Motion (Art camp)	Elementary	Masterpieces in Motion art camp will focus on artwork from famous artists that strived to be the best. Each artist that made a masterpiece will be studied and acknowledged through replicating an artwork. This

			is a wonderful opportunity for your child to learn art history, but with a fun twist in creating their own Masterpiece! We will use a variety of materials from watercolor, oil pastels, chalk pastels, colored pencils, and yarn. Please make sure to not wear your Sunday best!
	Photography	Middle	Students will learn to use a DSLR camera during the camp. Students will learn to use photo editing software. Students will also learn videography and video editing.
	Culinary Camp	Middle	Students will work in teams learning how to cook a variety of dishes. Students will make a cookbook with the recipes and keep their apron at the conclusion of the camp.
<b>Week 2</b> June 8-11	Acoustic Camp (Ukulele & Guitar)	Elementary	This year's acoustic camp will offer exploring a mix of two popular acoustic instruments, ukulele and guitar. We will teach your child the basics of these instruments and how the two can work together to create music! Everything from the parts that make up the instruments to how chords are formed, we'll learn it all! Don't have an instrument? No problem. We provide all of the necessary materials for your child to be successful at camp. Your child is sure to come out a certified rockstar with a deeper passion for music!
	Brushes and Beyond (Art Camp)	Elementary	Brushes and Beyond art camp will teach your child about the different styles of brushes and materials to use with them. Focusing on correct form with the brush while having fun learning the different ways to create art. We will also use different objects to explore the many ways of creating art. My goal is for your child to have fun and pull out their inner artist!
	Camp Wow Factor	Elementary	Camp Wow Factor blends active play and STEM learning into one unforgettable summer experience. Campers challenge their bodies through skating, bowling and rock climbing while exploring science through hands-on experiments and creative problem solving. Kids

			build confidence, teamwork and curiosity - all while having an amazing time! Students will be transported in a district vehicle for daily field trips.
	Engineering This!	Middle	Engineering This! is a hands-on engineering and architecture summer camp where middle school students design, build, and test creative structures while learning how real engineers and architects turn ideas into reality. Projects include building a gravity-defying spaghetti tower, designing and constructing a model skyscraper, engineering and flying custom kites, and learning the basics of CAD to bring ideas from screen to structure, all while having fun and thinking like real engineers and architects.
	Camp Field Day	Middle	Get ready for a day of fun, games, and friendly competition at our Camp Field Day! Packed with outdoor and indoor activities like relay races, kickball, putt putt, lawn bowling, dodgeball, obstacle courses, and more, this camp is all about staying active and having a blast. Students will build teamwork and make new friends while enjoying the competitive activities.
	Woodworking Camp	Middle	Students will learn the use of different wood tools and how to use them safely. Students will build different wood projects to take home at the end of the week.
	Culinary Camp	Middle	Students will work in teams learning how to cook a variety of dishes. Students will make a cookbook with the recipes and keep their apron at the conclusion of the camp.
<b>Week 3</b> June 15-18	Elementary Choir	Elementary	Does your child love to sing, make friends, and have fun? Our Elementary Choir Camp is the perfect place for young voices to shine! Students will learn exciting songs, build confidence, explore music basics, and perform in a special end-of-camp showcase! No experience needed! Come discover the joy of music in a supportive

		and energetic environment.
Sew Much Fun!	Elementary	Come join the Sew Much Fun! Enrichment Camp at Willis High School. During this camp your child will learn to sew, making a few sewn projects that they will take with them. This camp will reinforce various math skills to include measuring, reading skills, plus use of active listening skills. If hands-on learning is how your child learns best, this camp might be for them.
Creative Coders Camp	Elementary	Spark your creativity while learning the basics of coding! Explore hands-on, unplugged coding activities and beginner-friendly online programs to build problem-solving skills, teamwork, and a strong foundation in computer science—all while having fun!
Math Olympics	Elementary	Get ready to go for the gold at Math Olympics Camp - where learning meets friendly competition and nonstop fun! Campers will team up for exciting math challenges, play fast-paced math games and build skills through hands-on activities that boost confidence and creativity. Inspired by real math competitions and team problem-solving events, kids will race through outdoor relays, tackle puzzles and celebrate their victories together. In between events, they'll get crafty with math-themed projects, enjoy delicious math-inspired snacks and make new friends along the way. Whether competing, creating or just having fun, every camper will feel like a champion!
Art in Action	Elementary	This summer enrichment camp invites students to explore the exciting world of 3D art through hands-on, creative projects. Students will experiment with a variety of materials and techniques to create 3D masterpieces. Through both individual and team-based activities, campers will develop artistic skills, creativity, and problem-solving while bringing their ideas to life in fun and imaginative ways.
Engineering This!	Middle	Engineering This! is a hands-on engineering and architecture summer

			camp where middle school students design, build, and test creative structures while learning how real engineers and architects turn ideas into reality. Projects include building a gravity-defying spaghetti tower, designing and constructing a model skyscraper, engineering and flying custom kites, and learning the basics of CAD to bring ideas from screen to structure, all while having fun and thinking like real engineers and architects.
	Culinary Camp	Middle	Students will work in teams learning how to cook a variety of dishes. Students will make a cookbook with the recipes and keep their apron at the conclusion of the camp.
<b>Week 4</b> June 22-25	Global STEAM Adventure	Elementary	Travel the world without leaving camp! Explore Mexico, Brazil, Japan, India, Egypt, Australia, France, and Kenya through hands-on STEAM challenges, cultural games, creative projects, and global foods—building, designing, moving, and discovering how people live, solve problems, and celebrate across the globe.
	Creative Writing	Elementary	Join us for Creative Writing Camp, where imagination knows no bounds! This camp is a haven for young writers eager to explore their storytelling potential. Students will delve into the art of crafting characters, building worlds, and weaving plots. Through immersive art activities and storytelling sessions, inspiration will abound in every corner. Join us for an unforgettable adventure into the realm of imagination, where every word is a step closer to discovering new worlds and endless possibilities. Unleash your creativity at our Creative Writing Camp!
	Chemistry Camp	Middle	Explore the exciting world of chemistry through fun, hands-on experiments! Students will investigate reactions, matter, and mixtures while thinking and working like real scientists in an engaging environment.
