GHS Scholar Achievement Plan

- * **School-Wide Literacy:** Enhancing literacy across all grade levels is crucial. This includes not only reading and writing skills but also comprehension and critical thinking. Implementing programs that foster a love for reading, providing professional development for teachers on literacy instruction, and integrating literacy into **ALL** subject areas can help achieve this goal.
- * **Building Engagement Strategies for All Learning Styles:** Recognizing that students have diverse learning preferences (visual, auditory, kinesthetic, etc.) and developing strategies to engage each style can improve learning outcomes. This might involve differentiated instruction, use of technology, hands-on activities, and varied assessment methods.
- * **Positive Behavior Systems of Support (PBIS) with a Focus on Attendance:** Establishing a positive school climate through PBIS can help reduce disciplinary issues and improve student behavior. Focusing on attendance within this framework is essential, as consistent attendance is closely linked to academic success. Strategies may include rewards for good attendance, mentoring programs, and identifying and addressing barriers to attendance.
