

**TRAUMA-INFORMED  
 PRACTICES**

**FOR EARLY CHILDHOOD  
 EDUCATORS**

This engaging and interactive professional development workshop equips early childhood educators with the tools and knowledge to implement trauma-informed practices in their classrooms. This workshop explores the effects of trauma on young children, emphasizes the importance of relationship-based approaches, and provides actionable strategies for reducing stress, building resilience, and fostering healing in early learning environments. Through discussions and reflective exercises, participants will leave with a deeper understanding of trauma and practical skills to support all children effectively.
