April 7, 2026

Dear Parent/Guardian,

The Deer Valley Unified School District is committed to providing the best possible educational environment for every student. As part of this commitment, the [District's Long Range Planning Committee](#) has met regularly to review enrollment trends, school capacities, and community data, with the goal of ensuring that all schools are appropriately utilized and able to best support student learning.

Through this process, the Committee developed recommendations for potential boundary adjustments for the 2026–27 school year. These proposed changes primarily impacted 12 elementary and middle school attendance areas. The Committee presented its recommendations to the DVUSD Governing Board on February 17 ([watch meeting here](#)). At its March 10 meeting, the Governing Board voted not to approve the recommendations for the next school year ([watch meeting here](#)). As a result, there will be no changes to DVUSD school boundaries for the 2026–27 school year.

We sincerely appreciate your patience, understanding, and partnership throughout this process. Ensuring balanced enrollment across our schools remains an important priority as we continue working to provide high-quality learning environments for all students, both now and in the future.

Sincerely,

Deer Valley Unified School District
