

NOOR FATIMA

EFFECTIVE COMMUNICATOR

About Me

I'm a Pakistani girl who is an 8th grader at Ponus Ridge STEAM Academy who loves school. I have a passion for history and my favorite subject in Social Studies. I also enjoy sports and am hopefully trying out for a volleyball team in the near future. I find joy in my Islamic religion; I try to best to attend my mosque as much as possible and look forward to events that take place there. It is a welcoming and fun community. Not too long ago, I attended the Board of Education meeting in 2024 to promote recognizing Eid as an important holiday for students. I also participate in our Yearbook, Creative Writing club, NJHS and more at Ponus. I also like to volunteer and take advantage of opportunities for service as much as I can.

I am an Effective Communicator when I

When I lead groups, for example on STEAM day at Ponus. I help divide work evenly and took on the role of group leader. In this role, I had to make sure to communicate what our group needed to produce, and lead with a positive attitude. When issues arise at school, I am proactive in reaching out to our counselor, to share my concerns and receive suggestions for problem solving. When presenting an issue, I provide details, that can help determine what the solution may be. This type of communication helps me to be an outstanding problem solver. At home, I share the responsibility of caring for my baby brother. I listen to what my parents need and follow through. In caring for my brother, I also need to communicate to my parents of what he needs and how I can help.

"God loves you, do what will benefit you in life."
