

Anastasia Statkevicius's Portrait of a Graduate

MY PORTRAIT OF GRADUATE SKILLS

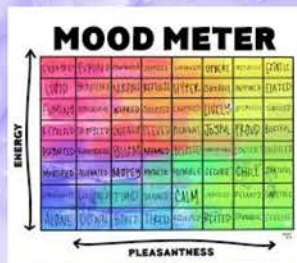

Critical Thinking

Effective Communicator

PORTRAIT OF A GRADUATE

RULER OF MY BEST SELF

The ruler of my best self is when I am my best self I am motivated, energized, relaxed.

MULTIPLE INTELLIGENCES

My multiple intelligences are math smart and art smart. When I am math smart I think of Pemdass and pushing be on my what I can do and with fun. When I am art smart I think of mixing and changing up colors with paintings that just feel like they are feeling.

GOALS - GROWS AND GLOWS

One goal for my life is to make the High School Swim Team

One goal short-term goal is to get a higher score on a math test

3 IMPORTANT NUMBERS

The greatest meme ever in my first year of middle school

The day I was born on.

The year I started elementary school.

My Effective Communicator Skills

I am an effective Communicator everyday. I start the day off by talking and listening to some of my teachers. On Tuesdays when I have yearbook club I am the first person most of the time there and I go into Mr. Frajndlich room. I have a conversation with him. My emotions are energized, easygoing, enthusiastic. When I talk with adults words just flow out of my mouth. Challenges are trying to find a topic to talk about because nobody wants to sit in a room with silents. The lessons I learn when I talk with Mr. Frajndlich I mostly learn a valuable life lesson. This is how I am an effective communicator. When I talk to teachers I just feel like I can talk just like I write. The lessons I learn in this conversation are life lessons or answers to questions.
