## 2024-2025 School Accountability Report Card (Published During the 2025-2026 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

<b>Admission Requirements for the University of California (UC)</b>	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <a href="https://admission.universityofcalifornia.edu/">https://admission.universityofcalifornia.edu/</a> .
<b>Admission Requirements for the California State University (CSU)</b>	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <a href="https://www2.calstate.edu/">https://www2.calstate.edu/</a> .

### 2025-26 School Description and Mission Statement

The Jack L. Weaver Elementary School Mission is grounded in creating a secure and supportive environment that nurtures a passion for lifelong learning. Committed to academic excellence, Weaver Elementary places a high value on the collaboration between parents, community members, and educators as integral partners in the educational journey. Through an emphasis on character development, the school prepares students to embrace responsibility as citizens in a diverse society. The adoption of a year-round education model ensures a continuous opportunity for optimal learning experiences. The school's program goals are multifaceted, aiming to provide appropriately challenging instruction in an integrated literature-based language arts/social science curriculum, a manipulative-based mathematics program that emphasizes cognitive guided instruction (CGI), hands-on exploration of physical, life, and earth science concepts in a S.T.E.A.M.-driven environment, and the strategic use of

technology to foster critical thinking and collaboration among students.

At the core of the school's mission are the principles of rigorous curriculum, high expectations, skilled staff, character development, social responsibility, and strong family and community partnerships. Weaver takes pride in its outstanding traditions, K-5 achievements, and accomplishments, positioning itself as a model school in Orange County for Cognitively Guided Instruction in math and Junior Great Books in language arts. The school's commitment to enriching programs, including art partnerships with Meet the Masters and a comprehensive music program with choral, musical, and dance components, distinguishes Weaver Elementary. With classrooms equipped with cutting-edge technology and instructional tools, the school employs Thinking Maps and icons of depth and complexity throughout the TK-5 grade levels. This holistic mission propels Weaver to maintain its position at the forefront of the district, county, and state educational landscape.

## 2025-26 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Los Alamitos Unified School District (LAUSD) sets a high priority upon ensuring that high quality, standards-based textbooks and materials are available for every student to support instructional programs in the schools. Prior to adoption, the Los Alamitos Unified School District conducts a thorough review of its curriculum to ensure that it is aligned with the California Standards for the Common Core. Under California law, the State Board of Education reviews K-8 textbooks and other instructional materials and then adopts those meeting specific quality standards. In the Los Alamitos Unified School District, textbooks considered for adoption are carefully reviewed by a committee of teachers and administrators. The most promising programs are piloted using established criteria and guidelines. The recommended books are then approved by the Los Alamitos Unified School District Board of Education. To receive State instructional funds, the Los Alamitos Unified School District ensures that it has fully complied with the requirements of Education Code Section 60119. The District has also conducted an annual public hearing ensuring the sufficiency of instructional materials. Each school maintains a library/media center which is supported by District.

## School Facility Conditions and Planned Improvements

The Los Alamitos Unified School District has always emphasized the importance of a clean, safe environment for learning. The environment of each campus is a matter of pride for students, staff and parents. Several schools have planted individual gardens, organized workrooms, and planned workdays for students and parents to enhance the facility. To insure that our facilities are in good repair condition, custodians at each site perform monthly inspections and the District maintenance crew places safety as the number one priority. Weaver was built in 1953. Overall the school is in good condition. It is clean and well maintained. Voters within the District boundaries approved a local bond in 2008. Due to the passage of the Measure K Bond in 2008, all school sites within the District were modernized. The modernization work included the installation of new roofs, electrical, HVAC, plumbing, fire alarm and data systems. The doors, windows and flooring were replaced along with all new restroom fixtures. The modernization of Weaver Elementary School was completed in May, 2015. Additional information about the condition of the school's facilities may be obtained by speaking with the school principal.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessments and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

Subject	School 2023-24	School 2024-25	District 2023-24	District 2024-25	State 2023-24	State 2024-25

<b>Mathematics</b> (grades 3-8 and 11)	92	88	65	64	35	37

## 2024-25 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2024-25 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2024-25 California Physical Fitness Test Participation Rates

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Grade Level	Component 1: Aerobic Capacity	Component 2: Abdominal Strength and Endurance	Component 3: Trunk Extensor and Strength and Flexibility	Component 4: Upper Body Strength and Endurance	Component 5: Flexibility

Grade 7	98.4	99.0	98.2	98.8	98.0
Grade 9	78.7	80.5	80.6	79.9	81.7

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2025-26 Opportunities for Parental Involvement

We take great pride in the active engagement of parents at Weaver School. Parents actively participate as members of the PTA, School Site Council, and Friends of Weaver (FOW). Monthly PTA/FOW meetings are held throughout the school year, while School Site Council meetings convene at least three times annually. All parents and community members are encouraged to attend any school meeting or activity. To enhance parent involvement, a variety of opportunities are presented throughout the year. These include a 6-part parent education series led by Dr. Jerry Weichman, volunteer training sessions, technology committees, participation in the Giving Tree and Jog-A-Thon committees, a celebration for Veteran's Day, weekly flag ceremonies, the School-wide Carnival, and Summer Jam. Classroom volunteering is also warmly welcomed, and for more information on organized opportunities for parent involvement at Weaver, please reach out to the school office.

Established in 1985, the Los Alamitos USD Educational Foundation is a community-driven non-profit organization. Comprising concerned community members, the foundation collaboratively raises funds to uphold and enhance the quality of education in the Los Alamitos Unified School District. With a dedicated focus on fundraising for technology and other specialized projects, the Foundation plays a pivotal role in supporting the district's educational initiatives. For further details or inquiries, contact the Los Alamitos Educational Foundation at P.O. Box 1210, Los Alamitos, CA 90720, or visit their website at <http://www.laef4kids.org>.

## 2025-26 School Safety Plan

Each school within the Los Alamitos Unified School District maintains a robust framework for safety through its Comprehensive Safe School Plan (CSSP), Emergency Preparedness Plan, and Crisis Intervention Plan. In light of the current circumstances, particular attention has been devoted this year to enhancing pandemic safety practices and protocols within these documents. Together, these plans comprehensively address all facets of campus safety. Copies of these plans are readily available and can be obtained by request from parents and the general public. The CSSP undergoes an annual review and update conducted by the School Site Council, followed by Board Approval. Additionally, the CSSP is securely archived at the Orange County Department of Education. The overarching objective is to establish and maintain a healthy, safe, and drug-free environment across all campuses in the Los Alamitos Unified School District.

## Professional Development

The primary areas of focus for staff development are the District's Signature Practices: Cognitively Guided Instruction (CGI), the Science of Reading, Thinking Maps and Depth and Complexity. As the District has adopted comprehensive, new curriculum in both English-Language Arts and science for grades K-8, additional professional development modules have been provided for these adoptions and alignment with scope and sequence. Student data is collected via District benchmarks and various formal assessments, such as CAASPP and the MAP Growth Assessment, to determine instructional needs for teachers. The District provides annual training to ensure accurate calibration in the administration of reading and mathematics assessments in order to assess site vs. district-wide areas of concerns.

Professional development is delivered by way of release time for teachers in the all of the Signature Practices. Teachers new to the Los Alamitos Unified School District are placed on a five-year professional development plan. Teachers are placed into cohorts according to the number of years with the District and attend professional development sessions. Teachers are also released to attend pre-approved workshops and conferences with the expectation of disseminating their findings by way of instructional networking. The District also provides content specific training when needed by departments or grade level teams.

Teachers are supported through on-going, in-class coaching by District TOSAs. Site administrators provide regular, ongoing feedback by conducting classroom observations, setting individual goals for teachers, and by providing time for teachers to collaborate and review data within grade level teams, subject teams and departments. Teachers are provided opportunities to participate in instructional networking where teachers observe other teachers and debrief on the instructional strategies employed within the lesson. The practice of instructional networking is cross-curricular and non-evaluative.

Since the 2020-21 school year, we have started focusing on Eduprotocols as a means of increasing student engagement as well as opportunities for collaboration, critical thinking, and creativity. In addition, Eduprotocols allow teachers greater class time to focus on higher order thinking skills instead of lower level tasks. In addition, we are continuing PD in technology implementation that impacts both teacher instructional practice and student learning and creation. This past fall, Weaver partnered with Hopkinson Elementary to provide professional development that emphasized how technology should be used as a tool to weave into solid pedagogical practices. We have continued that into the 2021-22 school year with several of our staff attending in-person and hands-on trainings in advanced Eduprotocols.
