# Help Your Child Do Well in School: **Build the Habit of Good Attendance**

## Did you know?

- Too many absences in preschool and elementary school can cause children to struggle socially and academically.
- Being late to school may lead to poor attendance.
- Missing 10% of school (2 days each month) can make it harder to learn to read and do basic math.

Attending school regularly helps children feel better about school — and themselves.

Start building this habit in preschool and through elementary school so they learn right away that going to school on time, every day, is important.

## What you can do

- Set a **regular** bedtime and morning routine.
- Lay out clothes and pack backpacks **the night before**.
- **Keep** your child **healthy** and make sure your child has the required shots.
- Develop **backup plans** for getting to school if something comes up.
- **Monitor** your child's **absences**.
- Try to schedule **nonurgent medical appointments** and extended trips when school isn't in session.
- **If** your child seems **anxious** about going to school, **talk to teachers**, school counselors and other parents for advice on how to make your child feel comfortable and excited about learning.
- **If** you are **concerned** that your child may have a contagious illness, **call** your school nurse or health-care provider **for advice**. Ask the teacher for ideas to support missed learning time.

Chronic absence is missing 2+ days every month over the course of a school year.

# Support Gabby's TPIAT Transplant

Gabby is an 8 year old with a rare genetic mutation of CPA1 gene causing acute recurrent and chronic pancreatitis as well as exocrine pancreatic insufficiency. Her pancreas doesn't work correctly and she lives with chronic debilitating pain. This causes frequent absences whether school or extracurricular, sharp/stabbing abdominal pain, nausea/vomiting, and as needed every four hours 5mg of morphine that has been ineffective. Gabby is having surgery 4/14/26 in Columbus, OH to remove four organs including the pancreas permanently and transplanting islet cells from the pancreas to the liver. She has a long and grueling surgery and recover time.

This procedure requires her mom, a registered nurse at Westerly Hospital to relocate with her to OH for up to 12 weeks. It requires her dad, a supervisor at Electric Boat to stay behind and care for the other siblings. It will leave her an insulin dependent diabetic potentially for the rest of her life. Hopefully, it will get rid of her pain and allow a better quality of life. No other options are available due to this mutation. Follow ups are every 2-3 months in OH for the first year and every 4-6 months the second year. Between all her hospitalizations and travel between Boston Children's and Nationwide Children's Hospitals it has depleted the families savings.

At this time, the family has made a go fund me to help them stay afloat with both parents out of work. Additionally, t-shirts are being sold to raise awareness and show Gabby support. Proceeds from t-shirt purchases will also be donated to the family.

Please help this loving family and their little girl
