

Daphne GONZALEZ

SELF-DIRECTED LEARNER
REFLECTIVE

About Me

I'm in 6th grade at Nathan Hale Middle School, and at school, I like talking with my friends and teachers. I also like learning about the arts, like music, theater, visual arts, inside and outside of school. I have a younger sister named Josie and I have 3 cousins. I like being the oldest sibling and cousin because I enjoy feeling like a role model for them. When I'm older, I want to be a graphic designer who designs things like fashion, advertisements, interiors, all of that good stuff. I'm definitely not a morning person, I cannot get myself up and out of bed at a good time. I'm a very social person, I can make friends easily.

I am a Self-Directed Learner when I

self-monitor myself and I track my progress to see where I can improve, like in theater and in school. Improvement is key, because otherwise, you won't go anywhere! I try to get myself to have healthy habits instead of unhealthy ones, unhealthy habits are never good to have. Some unhealthy habits that I have is being unprepared for school in the morning. I get up really late, but I'm currently trying to get better at things like that. I also set goals for myself so that I change my ways instead of doing nothing. Speaking of tracking progress and such, I'm also reflective! I think back after things like tests, performances, and sports games to see what I did well and where I can improve so that each time after, I'll be better! I am a strong self-directed learner and a great reflector.

“30 years from now, it won't matter what shoes you wore, how your hair looked, or the jeans you bought. What will matter is how you lived, how you loved, and what you learned along the way.” -
