

ELIZA MCCARTHY

CRITICAL THINKER
THINKERS

About Me

I'm in 6th grade at Nathan Hale Middle School and I'm 12. I have a brother named Tommy who is in 3rd grade. Some of my favorite things are horseback riding, theater, and legos. I also play the viola. I have two dogs named Reagan and Ella. Reagan is crazy and Ella's favorite activities are eating and sleeping. I want to get a fish soon, too. I'm currently learning French and Spanish. I like all the subjects at school and all of my teachers. This semester, my school is putting on 13 the musical JR.

I am an Critical Thinker when I

am in math class, if I get a different answer from someone in my class, I will always ask how they got the answer instead of copying. Also, whenever someone tells me something they've heard online, I will look up the fact to see if it's true. There are a lot of lies on the internet. I will also think about if the fact is likely to be true or if it sounds fake. When I read things online, if I see something that I don't think is correct, I will look at other websites to see if they have the same information. I don't believe everything I read, see, or hear, I check to see if it's correct before believing it because even though someone I know thinks something, that doesn't necessarily make it correct. I also use reliable sources when I'm doing a project so I don't get a lot of wrong answers on it. I love learning because I am knowledgeable. I remember facts and I learn things quickly. Overall, I don't just believe something because it will make my life easier because it will take so much more work to correct the mistake that it would to fact check.

"The journey of 1,000 miles begins with a single step" - Lao Tzu
