

HAYDEN BOATWRIGHT

SYNERGISTIC COLLABORATOR
OPEN-MINDED

About Me

I go to Nathan Hale Middle School! I am in the 6th grade, I am auditioning for my school musical and I did my first play at my school but I have done so many plays outside of school. I do professional acting for an agency and I have been in commercials! I don't know if you can tell I love theater, I want to become an actor and doctor when I grow up! I have a dog named Teddy. He is very hyper but when he is calm I love to cuddle with him. I love to call my friends to hang out because my friends always make me laugh. My favorite subject is ELA because I am very good at literature. If my friends are sad I always let them know that I will always be there for them. I LOVE going to NYC with my friends and family to go shopping! I am a really outgoing person!

I am a Synergistic Collaborator when I

do dance and theater. I make sure everyone can work together as a group and we can give each other feedback on our acting and dancing skills. I love working in groups and letting everyone participate! I make sure I include everyone and I am open to others' thoughts and opinions and hope they appreciate mine. I am open minded because I respect people's thoughts, opinions, and ideas and I am open to their thoughts. In dance we all give each other some feedback on what we can improve on and everyone respects that. We need feedback so that we can improve in the future. Also in acting you always have to give feedback to make them better. I am very open-minded because I always share my opinions and let other people get to share their opinions.

"Darkness cannot drive out darkness, only light can do that. Hate cannot drive out hate, only love can do that" - Martin Luther King Jr.
