

JAMES LONDONO

GLOBAL CITIZEN
CRITICAL THINKER

About Me

I live in Norwalk, Connecticut. I'm from Columbia, Italy and Switzerland. Something about me is that I am very caring, loving and compassionate. I'm a funny outgoing person. I'm very athletic, I love to ski as well. I play lots of sports, one of them being club lacrosse. I have a little sister named Hannah and my parents' names are Edie and Liz. I attend Nathan Hale Middle school in sixth grade. When I have free time I like to play with legos, I would say I'm pretty good at them. I have made coin sorters, safes and more. Not just that but I am currently making one of the worlds biggest lego sets. I also really like music, when I play my alexa I'm usually listening to Morgan Wallen, Queen, Boston, Aha, NSYNC and more. I try not to be addicted to a screen most of the time when I'm bored I read the Bible. I love to EAT all different foods like clams, sushi and pizza. Personally I like to read books that are General Nonfiction or Academic/Technical Books. On Sunday I go to church and on Wednesday I play lacrosse. Almost every day I need to practice my viola at home. This is only a fraction of my daily life. In total I work hard, stay curious, and always try to be the best version of myself.

I am a Global Citizen when I

am at lacrosse practice or a game and I treat them with sportsmanship no matter who they are by appreciating different cultures, beliefs, and perspectives. I also communicate a lot when I play lacrosse since it reduces mistakes. I don't just show it only in lacrosse but in every sport I play like when I play chinese Checkers I play fairly because if I don't it can affect the person negatively. When I made my ski club at Nathan Hale Middle school I wanted to make the school even better than it was by giving the students an opportunity to ski for the first time. In the process I faced many problems but I used my critical thinking to problem solve. It was hard having a big responsibility but I see it as a gift. I use International-mindedness when I give people help when they need it, even if I give a pencil to someone everyday at least I can say I did my part. When I do it I believe it would impact them better than me. I always try to make someone's day better, when it comes to giving someone a pencil when they need it or by standing up for someone that's getting bullied. When I work in groups I respect everybody there and I try to keep everybody lively by sneaking in a couple jokes. I try to include everyone when I'm working in groups and turning weaknesses into advantages.

“Leadership isn’t conferred by title—it’s earned through consistency, courage, and quiet conviction.” – Benjamin Ross
