EFFECTIVE COMMUNICATOR
COMMUNICATOR

About Me

I am a sixth grade student at Nathan Hale Middle School. I love to play sports like Lacrosse, Field hockey, swim, diving, and tennis. I like to play the cello in my free time and I love eating. I also love shopping and the mall is one of my favorite places to shop. I have a house in Vermont and I love to go skiing black diamond and tree trails there with my family. I also love boating. I have a boat of my own and during the summer time I love hanging out and swimming on my boat. I also love going to the beach and tanning on the sand near the shore. I love hanging out with my friends during the free time I have and I am very good at socializing!

I am an Effective Communicator when I

communicate, speak my opinions, and listen to others. I love socializing and I usually show my respect when people are speaking. I love working in groups during class or in projects and I am always there to share important ideas during class. One time, I was in class and my group for a project was stuck so I shared my ideas and they came up with more and shared them. I also have to collaborate with my teammates during sports so we can help each other and make sure the other team doesn't score. I always communicate with my teammates during my lacrosse games and it helps my teammates and me become closer friends and get better at Lacrosse. Communication on the mountain during skiing is also very important especially for safety so that you don't run into anyone. For example, when I was skiing and someone was going to pass me they said on your left so I knew they were coming. Communication is very important to me and I use it every day to make me socialize, learn, and grow. My goal is to keep sharing my ideas, respecting others ideas, and communicating effectively!
