Together, We Grow at Coronado Elementary

A Note from the Principal

Dear Coronado Families,

As we move into April, we are entering an important stretch of the school year. Our students have worked incredibly hard all year, and this month gives them the opportunity to show what they have learned while we also continue focusing on keeping our students healthy and in school.

What's Happening at Coronado?

During April, students in grades 3–5 will be participating in the Kansas State Assessments. These assessments help us measure student progress and ensure we are providing the best possible instruction for all learners.

You can help your child be successful by:

- Making sure they get a good night's sleep before testing days
- Ensuring they eat a healthy breakfast
- Encouraging them to try their best and take their time

We are proud of the growth our students have made this year, and these assessments are simply another opportunity for them to show what they know.

Attendance After Illness

We know this time of year can still bring illness into our homes and schools. Thank you for helping keep our students and staff healthy.

As a reminder:

- Students should stay home if they have fever, vomiting or diarrhea.
- Students may return to school once they have been symptom-free for 24 hours without medication.
- If your child is feeling well enough to participate in school activities, we encourage them to attend so they can continue learning with their classmates.

Consistent attendance plays a big role in student success, especially as we finish the final months of the school year.

Thank you for your continued support of Coronado Elementary. It truly takes a team effort between school and home to help our students succeed, and we appreciate everything you do.

We are looking forward to a strong finish to the school year!

Sincerely,

Tyler Burnett

Principal, Coronado Elementary

Kindergarten Roundup

Will your child be five years old on or before August 31, 2026? If so, kindergarten registration is the next step in their educational journey. Please join us at Kindergarten Roundup!

What to expect: Meet kindergarten teachers, learn about the upcoming school year and hear answers to any questions you may have.

Date: Thursday, April 23

Time: 6:00 p.m. doors open at 5:40 p.m.

Please bring your child's birth certificate, updated immunization records and address verification.

If you have questions or need help with registration, please call: 785-309-4733

Nurse

It is time to start planning for the next school year! If you have, or know, a child that will be entering kindergarten in the fall of 2026: Your child will need to have a physical done, immunizations brought up to date and provide documentation of both PRIOR to the first day of school. The physical can be done anytime, up to 6 months before the first day of school. Call now to be sure to get an appointment.

The two page physical forms are located on the USD 305 website, with the front to be completed by a parent and the back by a physician or approved provider. Here is a link to the forms:

[Health Forms](#)

State law does not allow the physical to be signed by a chiropractor. Please feel free to contact me with any questions! Hope to see you all at Kindergarten Roundup!

Coronado Family Picnic & Play Day

May 20, 2026

Menu

Hamburger with Ketchup & Mustard
Cheetos
Carrots with Ranch
Orange Wiggles
Chocolate Chip Cookie

**Picnic Reservations are due by Monday,
April 27, 2026.**

Grade 5

Our Grade 5 had a great time attending Match Madness! Students had the opportunity to visit with several nonprofits from around Saline county and learn about the important work they do in our community. It was a fun and meaningful way for students to see how people serve and support others locally. A new highlight this year was the chance for a school representative to shoot baskets to earn money for our school. Way to go to Mr. Burnett, who scored \$90 for Coronado!

Resource Classroom

Our resource students have been busy learning about the solar system. They helped create their own solar system model.

Conflict Resolution Skills

Conflict resolution skills can be significantly important to a child's well-being and self-confidence. These conflict resolution skills are not something a person is born with. We must teach our children how to resolve their differences with others so their life will be fulfilling and peaceful. The easiest way to teach these social skills begins when your child is very young. Guide your child through resolution with another child; this modeling will speak louder than any words ever will.

- Identify that your child is experiencing a conflict. When you hear voices start to rise, come in calmly and say something like, "I hear that there is a problem. Why don't we figure out what we can do about it?" It can be difficult for a child to see through the argument to the root of the issue. By identifying that there is a problem, you allow your child to take a step back and calm down.
- Come down to your child's level. Speaking from above will only worsen the problem. Sit with the children, kneel or sit in a low chair. Your posture tells your child that everyone here is an equal part in solving the conflict. When you stand from above, you take the power from the child and transfer it to yourself.
- Have the children take turns describing their conflict. Start with telling them that each will get a turn and that interrupting is not allowed. As part of this step, ask the children how they each feel about the situation.
- Repeat what the children have told you in our own words so that they know you understand the situation and their individual feelings.
- Ask for ideas about compromise. Let each child give his/her own answer for how he/she would like to see the conflict solved.
- Initially, keep your opinions to yourself. Do not tell the children how to resolve the conflict; this would not teach them anything. Children will naturally discard ideas that do not seem fair if they are given time to think and talk them through.
- Discuss the conflict and the solution that the children come up with. When a decision is reached, recap the conflict and how the solution will fix the issue. This will help solidify the lessons that the children have learned since they can clearly see how they have moved from conflict to resolution. It will help the situation make sense.
- Take action. Let the children put their solution into motion. Stay with them to smooth out any bumps in the same third-party manner that you have maintained.

Shirley Luce,
School Counselor

April Calendar

S	M	T	W	T	F	S
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
