

## SEIU Negotiation Update – 4/7/2026

As part of the Superintendent's commitment to transparency and information to the community regarding labor relations between the District and its labor partners, Fresno Unified is bringing updates in Negotiations News for negotiations between SEIU and the District.

We are pleased to share an update on the progress of our SEIU contract negotiations following our most recent meeting on April 2, 2026. Through thoughtful, collaborative, and transparent conversations with our labor partner, we have reached tentative agreement on the majority of contract articles impacting our grounds maintenance workers, warehouse drivers, bus drivers, and custodial staff.

This progress reflects the strong, respectful partnership we continue to build with SEIU and our shared commitment to supporting our employees. We remain engaged in ongoing discussions as we work together toward final agreement on the remaining articles.
