P-CCS TEST OUT DATES FOR 2025-26

- Registration for Test Outs must be completed online by clicking the link.
- **WINTER Registration Begins: November 3, 2025, the deadline is December 19, 2025.**
- **SPRING Registration Begins: February 9, 2026, the deadline is March 27, 2026.**
- District test outs are available for current students or students that have registered to attend PCCS in the future. You are required to provide your valid student ID number to sign up for a test out. If you have not registered to attend Plymouth-Canton Community Schools, please do so before you register, we look forward to you attending P-CCS!
- Passing a test out places a student in the next level of the subject area. For example, Mathematics or World Language.
- The NCAA does not accept test out credit as credit for future college-bound student athletes.
- Passing is determined by a score of 80% or higher.
- If a student does not pass the test out for a course that is required for graduation, they must take that course on schedule with their graduation year classmates. For example: U.S. History is a 10th grade class, students can take the test out prior to 10th grade and if they do not pass by the start of their 10th grade year, they must take the course as a 10th grade student.

Subject	Winter Test Date	Spring Test Date	Time	Location	Comments
