# Board of Education Meeting

Superintendent's Update
November 16, 2023

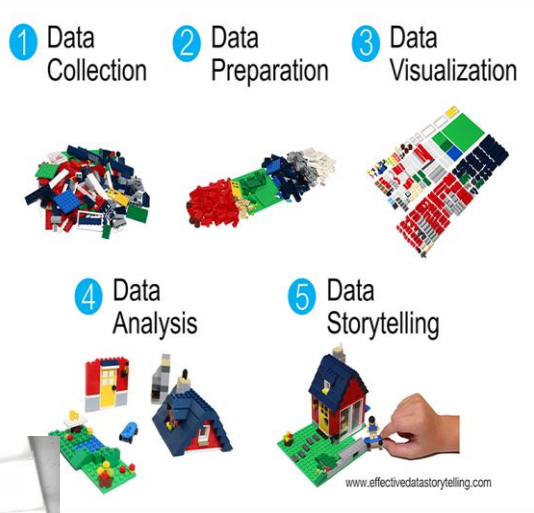

*Our school district has always been a beacon of hope and support, and it is during these challenging times that our strength and unity are most needed.*

# Two years ago, we began a district-wide journey towards becoming a more data informed/ data driven district.

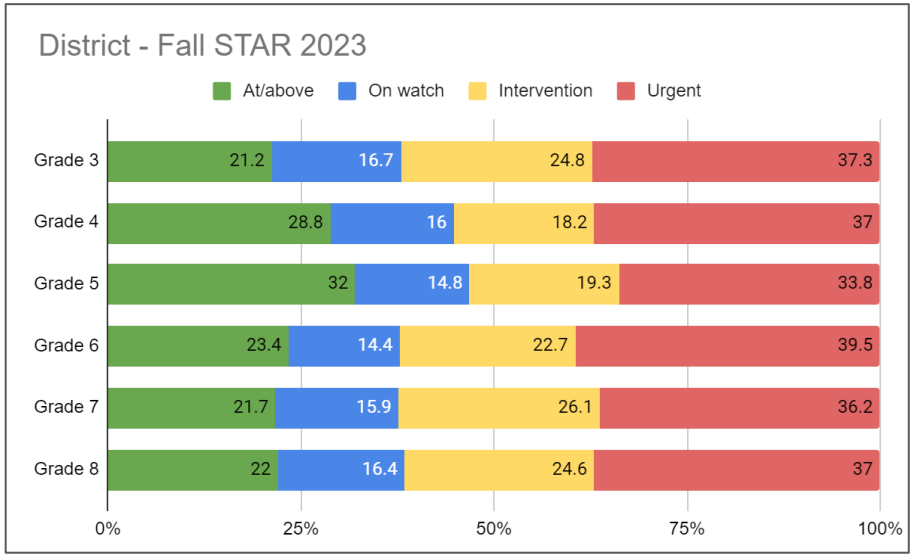

"The journey of going from raw data to a data story is a process. Successful data storytelling doesn't begin at step five—it begins right at the beginning with the data you collect." Through our work, we've aimed for a deeper understanding and recognize that just having data collected, can't tell a story. Through qualitative and quantitative information, we begin to understand, we have the ability to analyze, and can build a better experience for all students.
