Consent

Consent:

- U.S. DOE chose not require educational institutions to adopt a particular definition of consent with respect to sexual assault.

What does this mean?

- Create/use a definition of consent that makes sense to you and your district. Make sure you can 1) explain it and 2) apply it.
- Make sure to include situations where consent cannot be obtained/given (i.e. coercion, incapacitation) and clearly define those situations.

Q: Who makes sure Supportive Measures are offered, implemented, and recorded?

A: The Title IX Coordinator

- BUT this can be delegated to another staff member who **MUST** be trained
- The coordinator should make sure records are kept regarding when/how/if supportive measures were offered
- If a delegate is assigned to this step (eg. School counselor), they will take over communication with parties regarding available supportive measures.
- This takes communication, coordination and clarity about who will be handling what at a given point.

25

What are Supportive Measures?

- Supportive Measures means:
 - Non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed.
 - Measures designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the recipient's educational environment, or deter sexual harassment.
 - Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, escort services, mutual restrictions on contact between the parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures.
 - The district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that it would not impair the ability of the district to provide the supportive measures.

Supportive Measures: The Bottomline

- The rule defines *supportive measures* as non-disciplinary, non-punitive, individualized services, offered as appropriate and without charge to a complainant or a respondent before or after the filing of a formal complaint, or where no complaint has been filed. 34 C.F.R. § 106.30(a).
- OCR's commentary indicates that it declined to require that a supportive measure place the least possible burden or no burden on a respondent. However, OCR emphasizes that supportive measures should be designed to restore or preserve equal access to the education program or activity without "unreasonably" burdening the other party. In other words, a supportive measure that completely removes a respondent from an activity would likely be considered punitive.
- If a recipient does not offer supportive measures in response to a report, the recipient's records should document why the response was not clearly unreasonable under the known circumstances.

28

Deliberate Indifference

"Clearly unreasonable in light of the known circumstances"

- Must promptly offer supportive measures
- Cannot impose discipline without a formal process
- Must investigate allegations in a formal complaint

29

Monitor Open Cases: Be available for your team

01 Schedule meetings with complainants, respond to inquiries, and/or other cases.	02 Bring team together regularly to make sure processes are working smoothly.	03 Monitor outcomes, conduct and provide feedback on progress.	04 Communicate the current status of open cases to the team as soon as possible.	05 Use a data tracking system if possible.	06 If something isn't working, change it.
