Re: **Add-on to District Software as a Service for Transportation**

The following pricing was received:

Vendor	One Time Implementation Fee	Annual Recurring Charges
Tyler Technologies, Inc.	\$444,013.00	\$139,689.00

Note: Tyler Technologies is the current vendor for the district wide ERP Pro financial software, automation software utilized by Accounting to pay vendors as well as applicant tracking and onboarding used by Human Resources. This add-on service will replace multiple software programs currently being utilized by student transportation. The add-ons will include: fleet management, inventory control, student rostering and route management combining multiple services into a single service solution.

Term of contract will be for three years. Recurring charges may vary due to changing needs of the District.

Funding Source: General Fund – Transportation Reimbursable

Recommendation: Approve add-on to existing District software service along with a one time implementation fee.
