Symptom Checker

Find the Right Care For Your Symptoms

Answer a few questions about how you feel, and Symptom Checker can help you find the right care. We'll tell you if primary care, urgent care, walk-in care, or a virtual care option is your best choice.

We'll also provide a link that you can use to schedule an appointment, let us know you're on your way to urgent care or a walk-in clinic, or start virtual care.

Use Symptom Checker at coxhealth.com/findcare or in your MyChart patient portal. Visit coxhealth.com/mychart to register if you don't have MyChart yet. Dial 911 if you're experiencing an emergency.
