

Monica serves as the Director of Student Support at Siembra Leadership High School, a position she has held since January 2024. In this role, she oversees the coordination and implementation of student support services to promote academic success, student well-being, and equitable access to educational opportunities. Her responsibilities include leading school-wide restorative practices and providing administrative oversight for the virtual and asynchronous learning programs.

Monica brings a professional background in healthcare, including experience in pharmacy services and case management. In these roles, she supported individuals in accessing essential services and resources, with a focus on underserved populations. This experience informs her approach to student support, emphasizing the importance of removing barriers and providing comprehensive, wraparound services.

As an Albuquerque native, Monica brings an understanding of the local community and its diverse student population. She is committed to supporting all students in a manner consistent with district, state, and federal guidelines, including nondiscrimination and equitable access to programs and services.

Monica's work aligns with the mission and vision of Siembra Leadership High School and reflects a commitment to maintaining a safe, inclusive, and supportive learning environment for all students.
