-

This month our School Site Council Meeting is going to be run asynchronously so that families and staff can attend our Reach for the Stars Math Night on Wednesday. Here is what we are hoping for this meeting:

- Take a look at this [Quality Improvement Plan At-A-Glance handout](#) that describes our goals for the 2025-2026 school Year.
- Think about ways that you have noticed the school community working toward some of these goals and steps that we still need to take to reach them.
- Fill out the form below for each section of the QIP above that you have an idea. Fill in as much or as little as you would like.

We will go back to our normal Google Meets Meetings on April 8th.
