

# Ride safe, ride smart, and know before you roll!

*New Regulations for e-Scooters and e-Bicycles Approved by the Village and Park District*

Safety first, and then fun! With new modes of mobility becoming more and more popular around town, regulations have been approved to promote rider safety and provide clear guidance to all users across our integrated properties and trail systems.

## What's allowed where? It's confusing out there.

### E-Scooters

- E-scooters with a top speed over 10 m.p.h. are not permitted on public sidewalks, bike paths, in parks or parking lots. They can only be ridden on streets with a maximum speed limit of 35 m.p.h. by riders 18+, following the rules of the road.
- E-scooters with a top speed 10 m.p.h. or less may be ridden on sidewalks.

### E-Bikes

- E-bikes are not allowed on sidewalks.
- Only Class 1 (pedal assist only) can be ridden on **bike paths and in parks**.
- For roadway use, Class 1 and Class 2 may be operated by riders of any age, where Class 3 must be 16+ years old. **In all cases, riders must follow the rules of the road.**
- No non-highway vehicles (ATVs, dirt bikes, golf carts, etc.) are permitted on public streets, sidewalks, or paths.

Working together, we can help promote safe riding habits as we adapt to this new, popular form of mobility. Ride smart, ride safe, and know before you roll!
