April 29 - May 13th **SC Ready Testing**
See back for full schedule.

April 30th - Last day of Afterschool Program

May 1 - Lunch Hero Day

Health & Wellness

Deep Breathing

Deep breathing increases the supply of oxygen to your brain and can aid in relaxation. Bubble breathing is an effective breathing activity that has been shown to lower anxiety levels in school-aged children.

Tell your kids that when we are feeling Big feelings, the quickest way to tell our body that we are safe is through our breath! Take a great, big gulp of air and breathe out slowly like you are blowing a Giant Bubble! Practice your Bubble Breath during times when you feel upset.

Reading Spotlight

As we enter the final two months of the school year, it's important to help students stay focused, motivated, and excited about learning. While the end of the year can bring anticipation for summer, these last weeks are full of meaningful instruction, important skill-building, and opportunities for growth.

You can support your child's engagement at home in several simple ways. Maintain consistent routines, including regular bedtimes and homework schedules, to help your child stay energized and prepared each day. Show interest in what they are learning by asking questions, reviewing assignments together, and celebrating their progress—big or small. Encouraging a positive attitude about school can make a big difference in how students approach their day.

It's also helpful to set short-term goals with your child, such as completing assignments on time, improving in a subject area, or demonstrating positive behavior. Praise effort and perseverance, not just results. If your child seems less motivated, remind them that their hard work now sets them up for success next year.

Finally, please stay connected with your child's teacher and reach out if you have any questions or concerns. Working together, we can ensure every student finishes the year strong and confident.

Thank you for your continued support!

Testing Dates

April 29th — 3rd — 6th Grade Writing Test

April 30th — 4th & 6th Grade Science Test

May 4th - 3rd Grade Reading Part A

May 5th - 3rd Grade Reading Part B & 4th - 5th Grade Reading Part A
